

## British Officer Held In Death Of Jewish Youth

JERUSALEM (CP)—Major Alexander Roy Farran, British commando officer extradited from Syria for questioning about the disappearance of a Jewish youth, Alexander Rubovitz, is being detained "on a holding charge of murder" pending a decision on further action, it was officially stated today.

The official statement followed the rejection by the Palestine Supreme Court today of an order calling on Maj. Farran and senior police officers to show cause why they should not produce the body of Rubovitz who disappeared May 6 this year.

"Dozens" of intercepted government papers, together with secret files of Hagana, Jewish underground vigilante group, were recovered by police today, a government spokesman said.

This source reported two brief cases of documents were in the rear seat of a car stopped at a road block near Jerusalem Sunday night.

Police said that two Jews in the car had been arrested and later released on bail.

Meanwhile, the supreme court today rejected an appeal for an order to police to produce the body of Rubovitz, 16-year-old Jew who disappeared from Jerusalem May 6. The court ruled such an order was impossible while police still were investigating the case.

Relatives, in asking the order, had declared Rubovitz, allegedly a member of the Stern group of the Jewish underground, had been kidnapped and killed by a police patrol which had seized him for questioning.

The youth's body had not been found, but police have listed him as presumed dead.

## Private Documents, Meyer Subpoenaed For Hughes Inquiry

WASHINGTON (AP)—Senator Homer Ferguson (Rep., Mich.) capped a bitter verbal exchange with Howard Hughes today by issuing a subpoena for private documents and papers Hughes has in a local hotel.

Ferguson's action, as chairman of the Senate war investigating sub-committee, came after Hughes had refused to produce John Meyers, his publicity man, and had said he would make available from his papers only those cleared by his lawyers.

A subpoena also was issued for Meyer.

In a stormy scene of the inquiry into Hughes' \$40,000,000 wartime airplane contracts, Hughes today charged Chairman Ferguson was trying to put him and Meyer on the stand at the same time to "grab publicity."

The chairman then asked committee counsel to draw up a subpoena for Meyer immediately and signed the paper.

Earlier the Senate investigators found an expense account item by Meyer's predecessor as Hughes' publicist which listed entertainment for Jesse Jones—and immediately got an affidavit that Jones, former Commerce Secretary, was not entertained.

A surprise truce in the truth-or-consequences battle between Hughes and Senator Owen Brewster (Rep., Me.) swung the spotlight back today on Hughes' \$40,000,000 wartime airplane contracts.

Ferguson said the sub-committee hoped "to make quick work" of its main issue and wind up the public hearings this week-end.

## Odom Roaring Toward Karachi

CAIRO (AP)—Pilot William P. Odom, one-third of the way along on his effort to set a new solo record flight around the world, left Cairo today at 6.39 p.m. (9.39 a.m., P.D.T.) for Karachi, India.

The Roslyn, N.Y., airman, flying solo in an attempt to break the 186-hour record set by Wiley Post in 1933, hoped to complete the flight in 90 hours.

Odom averaged about 315 miles an hour on his flight from Paris, where he set down earlier today after an overseas hop from Gander, Nfld. Tail winds were expected to help him on the next leg, to Karachi.

Odom stopped in Paris 91 minutes for rest and a brief refueling before take-off on an intended non-stop flight to Karachi, but later he notified Cairo that he intended to refuel at Farouk field there.

Odom had left Chicago at 10.53 a.m., P.D.T., Thursday. He paused briefly at Gander to take on 1,200 gallons of gasoline before proceeding to Paris.

Odom said the Trans-Atlantic flight was "pretty rough" and that he had to climb to 25,000 feet to get above icing conditions.

## 12-Inch Water Main Bursts On Douglas

A Goodall, left and S. J. Grexton watch broken water main on Douglas Street near St. Mary's Priory. The James Bay Area will have low pressure until the main is repaired.

The 12-inch water main in front of St. Mary's Priory, 606 Douglas Street, burst at approximately 4.30 this morning, flooding down Douglas Street as far as Belleville Street. Thunderbird Park was inundated by the water, and water flowed up to the steps of the Douglas Street entrance of the Crystal Garden before workmen were able to get the water turned off and the storm sewers could carry the excess away.

A Goodall and S. J. Grexton survey the hole in the street caused by the water undermining the paving. It is approximately 10 feet long, four feet wide and almost four feet deep. Ernest Macdonald, waterworks superintendent, reported.

He said it would take all day to put in the new 12-foot length of pipe necessary to repair the break. The only section of the city cut off from water is

Douglas Street from Heywood to Michigan Streets, and this is occupied only by South Park School which is closed for summer vacation.

The burst pipe was installed only in 1932. Mr. Macdonald said, and he could advance no reason why it should have burst. It is one of the larger distribution mains in the city, the larger ones, up to 36 inches being used to bring water down from the source for distribution.

## Canadian Post Office Warns Of Counterfeit U.S. Money

OTTAWA (CP)—The Post Office Department warned its postal offices and stations from B.C. to the Maritime today that there was a lot of counterfeit American currency from \$10 to \$100 bills floating around, and asked its postmasters to be careful.

In its weekly bulletin to postal offices across Canada, the department said new \$10 and \$20 counterfeit American bills and two new \$100 U.S. Federal Reserve notes were in circulation and gave postmasters details on how they could be detected.

One of the new counterfeit \$10 bills bore the check letter "C," facsimile No. 9 and blackplate No. 147 and was of foreign origin, the department said. It could be identified by missing lines in the top portion of Hamilton's hair which made that area whiter than was genuine.

A new counterfeit \$20 bore the insignia of the Federal Reserve Bank of San Francisco, the check letter "A," facsimile No. 39 and blackplate No. 382. It had been

produced by photo-copy process and had the appearance of a photograph and printed on smooth, stiff paper. The "wen" portion of the word twenty was slightly obliterated.

One of the \$100 counterfeits was of "poor workmanship" the department said and in the Franklin portrait the long hair at the right of the examiner blends with the cross-hatched background and was barely distinguishable.

The other \$100 counterfeit note was of fair workmanship, printed on one sheet of paper bearing faint red and blue ink marks.

Counterfeit American bills which according to the Post Office Department at Ottawa have been "floating around" in denominations from \$10 to \$100, have not been passed over the counters at the Victoria Post Office.

"We have had no warning from Ottawa as yet on the matter but have experienced no trouble here," said a postal official.

## Frigate Locates Object In Gulf; May Be Missing T.C.A. Airliner

VANCOUVER (CP)—The frigate Antigoniis reported today it had located an "object about 12 feet high" lying in 60 feet of water off Prevost Island in Gulf of Georgia. The frigate has been sweeping the area with asdic equipment for wreckage of the Trans-Canada Airliner missing since April 28 with 15 persons aboard.

R.C.A.F. officers in charge of the search said today the "contact" was made only 50 feet from shore near Portlock Point, about 40 miles south of Vancouver.

"It could be anything," R.C.A.F. officials said, as navy divers prepared to make a descent in the fast-moving, treacherous waters that have hampered the search.

"We do not want to raise hopes that it may be the T.C.A. airliner."

Located near Active Pass on the route used by the Vancouver-Victoria steamers, Portlock Point has long been the scene of reports of "rising oil" by light-house keepers on the island.

Naval authorities said the object closely resembled reports by lighthouse keeper Henry Georgeon and his wife, who since May 5 have been reporting something in the water there. Attempts by the Georgeons to put a grappling line on the object almost pulled their small boat under when the object slid into deeper water when disturbed.

Reports from the island said that a five-year-old boy, whose name has not been disclosed, is reported to have awakened on the night the Vancouver-bound airliner vanished as it neared the end of a westbound flight from Vancouver crying "the plane's in the water."

## Father-in-Law Slain By Hysterical Wife Of Arkansas Lawyer

HOT SPRINGS, Ark. (AP)—Prosecutor Sidney S. McMath said today his 26-year-old blonde wife killed his father, Hal P. McMath, 56, at their swank suburban home early Thursday night while "hysterical with fright."

McMath declared he was requesting Judge Clyde E. Brown to call a special meeting of the grand jury to investigate and also was requesting appointment of a special prosecutor to present the case.

Brown and McMath, a wearer of the Navy Cross earned with United States Marines in the Pacific, are law partners.

Haggard, unshaven and attired in rumpled shirt and trousers, McMath handed reporters a prepared statement.

"My father has been running my farm... For years he has been an excessively heavy drinker. When he drank, like many men, he underwent a change in character... Drinking caused him to become irrational, abusive and violent."

"Monday when I was in court in Mt. Ida, my wife, Anne, had to call the sheriff's office after he (the elder McMath) had insulted and badly bruised her."

"Yesterday she started drinking again after I had left town... She started mistreating one of our horses. Anne pleaded with him to stop. He became enraged and violent and threatened to kill the horse. He also threatened her. She ran into the house to get away from him. He followed her, threatening and cursing and with his fist clenched. She picked up my .45 automatic... with the idea of threatening him away."

"She became hysterical with fright and began firing. Anne had never fired a weapon before in her life. I know she did not intend to kill my father, because she loved him as we all did. She would not have intentionally killed even to save her own life. "It is not necessary to express my sorrow at this worst tragedy in our lives."

## Sikh-Moslem Riots In Punjab Kill 70

LAHORE, India (AP)—Military reinforcements were brought into the Punjab today as the death toll from Sikh-Moslem riots mounted and tension grew with the approach of the Partition Council's decision dividing this land between India and Pakistan. Authoritative sources said that 70 persons were killed Thursday in the Amritsar district.

# Churchill Says Crisis Used As Flimsy Pretext To Give Labor Totalitarian Powers

## LATEST

### Trouble Reported On Canadian Ship

SOUTHAMPTON (CP)—Police left by launch today to board the Canadian-owned vessel Fort Dease Lake, now under charter to the Transport Ministry, which turned off course and anchored off the harbor entrance following reports of trouble among firemen aboard. Exact nature of the difficulties was unknown.

The vessel was en route from Antwerp to Greece. Other crew members were said to have taken over the task of firing.

### Airliner Located

SANTIAGO, Chile (Reuter)—The British South American Airways airliner Stardust, missing since Saturday on the last lap of a flight from London to Santiago, was today reported located in marshy ground near the Chile-Argentina frontier.

### Ship At Churchill

CHURCHILL, Man. (CP)—The Essex Trader, first freighter of the season to reach this grain-shipping port of Hudson Bay, docked today after what her master, Capt. C. Arundell, termed a "very fine voyage" from Liverpool.

The British freighter carried a mixed cargo of approximately 500 tons, including mining machinery, liquor, motorcycles and disinfectants, and immediately her cargo is discharged will begin loading grain for shipment to Britain.

### No More Hollywood Films For Britain

NEW YORK (AP)—Eric Johnston, president of the Motion Picture Association of America, announced today directors of the Motion Picture Export Association had voted to discontinue immediately shipment of U.S. feature films and short subjects to England. Johnston said the ban would continue indefinitely.

The action came after the British government had authorized the imposition of an import tax on films which the organization estimates will absorb 75 per cent of the earnings of U.S. films in Great Britain.

### Tooth Decay Halted

BOSTON (AP)—Four Texas dentists reported today a chemical solution which they said would make children almost totally immune to tooth decay and which they claimed to be half again as effective as sodium fluoride.

### England's Prime Minister Proposes Rigorous Program

Anxious crowd and news photographer wait outside 10 Downing Street, London, Eng., for Prime Minister Clement Attlee to appear before leaving for the House of Commons to announce Britain's new "austerity" program.

LONDON (AP)—The House of Commons today approved the Government's sweeping "crisis powers" bill. An amendment moved by Opposition Leader Winston Churchill to reject the bill, which he called "a blank cheque for totalitarian government" was defeated by 251 votes to 148.

The House then gave the bill a second reading—approving it in principle—without a record vote. The government hoped to push the measure through all remaining parliamentary stages before the Commons' scheduled adjournment next Wednesday.

The government maintained the bill is necessary for effective dealing with the British economic crisis. It would empower the government to tell men and women where they must work and to take over the management of firms considered to be operating inefficiently.

Home Secretary Chuter Ede, backing the bill, said "we believe that this is a crisis likely to move forward with such rapidity that we should have power to deal drastically and swiftly with any awkward situation that may arise."

Churchill snapped: "Hitler said that."

Ede, who opened the debate, told the House that there had been only two comparable times in British history to the present crisis—the economic crisis on the dissolution of the monasteries in Tudor times and the industrial revolution.

POWERS SOUGHT TO ACT FAST, DRASTICALLY

He bluntly declared that Britons must be prepared to put all their resources at the disposal of the community. The government sought power to deal "drastically and swiftly" with an awkward situation in a crisis which had to be dealt with immediately by short-term measures.

The Conservative opposition leader had dismissed as "a false, flimsy pretext" the emphatic declaration in an earlier speech by Herbert Morrison, government leader in the House, that the new powers were "appropriate and necessary" to meet Britain's straitened circumstances.

Amid cheers from opposition benches, the country's wartime Prime Minister declared: "Not only governments have rights; ordinary British people save them."

## Dutch May Reject Any Proposal To Force Arbitration On Dispute

LAKE SUCCESS (AP)—The Netherlands government was reported ready today to reject any plan for compulsory arbitration of the Indonesian dispute.

Informed quarters described the Dutch position as follows:

1. They already had agreed to accept the "good offices" of the United States to help settle the undecided war.

2. They would have no objections to a United Nations commission to supervise the present truce.

too... We are asked to give a blank cheque for totalitarian government."

Churchill's intervention, the result of a sudden decision taken only a few hours before the debate, was the climax of the third consecutive sitting which the Commons had devoted to Britain's economic crisis.

Churchill, angry and shouting, launched his bitter attack on the government after Morrison had told the House: "We are not going to be cross-examined in advance as to exactly what we will do with the powers when we get them." Morrison, Lord President of the Council in the cabinet, defended the powers sought under Prime Minister Attlee's emergency economic program and said they are not "a deep, dark plot to conduct a social revolution."

ORDER SUBJECT TO CHALLENGE

Orders made under the bill would be open to parliamentary challenge, Morrison added.

But Churchill hammered vigorously at the government in his speech moving rejection of the supplies and services bill embodying the requested powers.

"These powers are the negation of British freedom and way of living in time of peace," he declared.

"The governments proposals will mean the abrogation of Parliament and of all our long-cherished rights."

Contending that the plan announced by Attlee in the House on Wednesday was universally judged to be inadequate to the crisis, Churchill asked: "Is the government trying to make up for lack of deeds by boastful words?"

"Are they without a plan, trying to cover up their vacuity by assuming totalitarian powers?"

He said the government ministers would be "the absolute masters" of the country while parliament was in recess. It is scheduled to adjourn for the summer next week.

## Crerar Says Canada Hopes To Contribute To Jap Peace Treaty

TOKYO (AP)—Canada hopes to contribute useful service in the task of writing the Japanese peace treaty, Gen. H. D. G. Crerar, Canada's senior officer, told a press conference today.

"Canada's interest as a leading middle power in the political problems of the Far East is naturally very great," he said. "It is hoped by the Canadian government that by first-hand observation of the situation we will have a better background for the problems of postwar Japan."

He said the Canadian government was "anxious to explore all issues involved and how current events govern issues," leading up to the peace treaty.

Crerar said his visit here grew from the hope it would indicate Canada's interest in postwar trade with the Far East. He observed that Canada has become one of the world's great trading nations.

He remarked that from 1935 to 1939, Japan sent \$4,000,000 worth of goods to Canada while Canada shipped \$20,000,000 worth to Japan.

"Therefore," he added, "Canadian businessmen are keenly interested in Japan."

## Victoria Company Makes Offer On Streetcar Tracks

Capital Iron and Metals Ltd. has offered to pay the city full market value for the streetcar tracks once the all-bus transportation system is in operation and the city is ready to have the tracks removed.

The offer is made for the material on an "as and where is" basis, and the company states it has the necessary equipment and men to undertake the removal job.

To date little trackage of the discontinued streetcar lines is within the city limits, the majority being in Esquimalt where the Esquimalt and Gorge cars have been taken off, and the remainder in Oak Bay where part of the Uplands run went of discontinued. A small amount of disused tracks is in Victoria West. The municipalities have not made definite plans for the track removal and consequent road repairs.

The B.C. Electric Company, under the new franchise granted June 19, agreed to pay the municipalities \$350,000 towards the cost of removing the tracks and repairing the roads. It has been estimated by engineers that it may cost up to \$600,000 to do the job.

Crerar said his visit here grew from the hope it would indicate Canada's interest in postwar trade with the Far East. He observed that Canada has become one of the world's great trading nations.

He remarked that from 1935 to 1939, Japan sent \$4,000,000 worth of goods to Canada while Canada shipped \$20,000,000 worth to Japan.

"Therefore," he added, "Canadian businessmen are keenly interested in Japan."

## Kaiser Interested In Groundhog Coal

PRINCE RUPERT (CP)—British and United States interests have expressed keen interest in possible development of the vast Groundhog anthracite coal deposits in northern British Columbia.

Delegates to the annual convention of the Central B.C. Associated Boards of Trade were told Thursday three British coal firms had indicated they would be interested in development of the big coalfields 120 miles north of here on the Skeena River in the near future. However, they must first overcome present regulations restricting the export of British capital.

U.S. industrialist Henry Kaiser is actively interested in the deposits, delegates were told. Otto Von Alvensleben of Seattle, formerly of Vancouver, was reported to be investigating the fields on behalf of the Kaiser interests.

## C.P.R. Taxes-Reserves To Place New Equipment Orders, Says Neal

WINNIPEG — The Canadian Pacific Railway is dipping heavily into its financial reserves this summer for much-needed equipment, most of it designed for use in the west, it was revealed here today by W. M. Neal, C.B.E., chairman and president. Mr. Neal, who is making his first official inspection trip in western Canada since assuming office, announced that orders would be made this month for new locomotives and freight cars at a cost of more than \$22,500,000.

With orders already under way, this brings the season's total expenditure for rolling stock to more than \$47,000,000.

"It is a lot of money, and the company is discounting the fu-

ture heavily in expending it while the railways are still awaiting relief from the present inequitable balance of soaring costs of material and labor, with low fixed revenue," Mr. Neal said.

"It might reasonably have been expected that by this time a favorable decision upon the railway's current application for an adjustment of freight revenue would have been made. However, that has not been the case.

"Accordingly, the Canadian Pacific has been forced to anticipate the time when relief may be obtained, and to tax its diminishing reserves to the danger point to carry on the services which cannot be maintained out of current revenue.

Directors of the Canadian Pacific accompanying Mr. Neal on his president tour are G. W. Spinney, C.M.G.; E. G. Baker, Hon. J. Philippe Brins, C.B.E., K.C.; Hon. C. A. Dunning, P.C.; R. H. McMaster, L. J. Belnap. Other eastern business leaders with the party are H. G. Kirks, Dr. R. G. Brown, R. E. Stavert, and A. C. MacDonald, assistant to the president.

## Mine Threatens Tuna Fishermen

SEATTLE (AP) — Two Japanese mines were reported Thursday night floating off the Oregon coast in the same general area where a large number of tuna boats now are operating the coast guard said today.

One of the explosives was destroyed by the cutter Bonham, and the second was to be sought out today. The mines were floating about 110 miles west of Neah-Kahnie Mountain, about one-third of the way down the Oregon coast, the coast guard said.

## Weather

Weather today and tomorrow, valid until midnight Saturday.

Showery weather prevailed over the B.C. coast during the night and spread inland early this morning. Isolated thunderstorms were reported overnight in the Prince George region. Overnight temperatures were generally 5 to 10 degrees higher than those of the previous night in the southern half of B.C., while they were slightly lower over the rest of the province. Little clearing is in sight for today with improved conditions for the week-end.

Vancouver and vicinity Lower Fraser Valley, Strait of Georgia — Cloudy occasionally, overcast today and tonight. Widely scattered showers along the mountains today. Cloudy Saturday morning, clearing by afternoon. Light winds. Normal temperatures.

Victoria and vicinity — Cloudy, clearing this afternoon. Variable cloudiness overnight and early Saturday, clearing about midday. Winds southwest 15 miles per hour. Normal temperatures.

West Coast Vancouver Island — Overcast with widely scattered showers, clearing this afternoon. Overcast Saturday morning, clearing about noon. Winds light. Little change in temperature.

**'Fido' For Los Angeles**  
LOS ANGELES (AP) — "Fido," developed by the R.A.F. for breaking up fogs, is to be installed at the Los Angeles municipal airport. The system got its name from "fog, intensive disposal of," while Britain battled the German blitz.

**Nash Boosts Prices**  
DETROIT (AP) — Nash-Kelvinator Corp. announced Thursday price increases of \$95 to \$168.40 on its two-passenger automobile models. The Nash increases followed price hikes in recent days by General Motors, Packard and Kaiser-Frazer.

There is no reason to shun the soap in a public washroom for soap is effective against most disease germs. However, common towels should not be used since they can transmit disease, say health authorities.

## British Air Cadets Arrive Here To Complete Dominion Crossing

Group Capt. F. R. West, officer commanding Patricia Bay, addressing 46 British air cadets following their arrival Thursday evening at Patricia Bay. Seen in the background are two of the R.C.A.F. Dakotas which are being used to transport the boys while in the Dominion.

International goodwill is fostered here as three of the visiting members of the Air Training Corps of Britain meet their Canadian counterparts, members of the Air Cadet League of Canada. On the left, front to rear, are Sgt. Harris, West Harrow; Sgt. Howroyd, London, and Sgt. Coleman, London. Right, front to rear, are Cadet Bob Colwell, Cadet Alfred Lenz and Cadet Lorne Cooley, all from Alberta.

Forty-six cadets of Britain's Air Training Corps arrived at Patricia Bay airport Thursday evening to complete a trip across the Dominion of Canada which they earned as a reward for outstanding service. The boys come from air cadet squadrons in all parts of the United Kingdom.

During the trip across the country the group has had stopovers in nearly every major city. The boys are full of praise for Canadian hospitality, scenery and food. The latter, they say, is very much different from what they have at home, where rationing provides little or no variety. On arrival at Patricia Bay, the boys were paraded to receive greetings from a welcoming committee which was on hand. Ald. Ed. Williams, acting for Mayor Percy E. George who was unable to attend, extended a greeting from the citizens of Greater Victoria and Group Capt. F. R. West, officer commanding R.C.A.F. Patricia Bay, expressed a welcome from the station. R. H. B. Ker, director of the Air Cadet League of Canada, Harry P. Hodges, editor of the Times, and P. C. Routley, chairman of the Victoria air cadet committee, were also in attendance.

**CHUMMED WITH CANADIANS**  
Following the formal welcoming, the British lads broke off to mix and talk with Canadian air cadets who are at present at the Saanichton station undergoing two weeks' summer training. "The boys got along famously together," one station officer reported. "They messed together, swapped yarns and later went to a picture show at the station's recreation hall."

"For supper, watermelon was served as dessert. Both British and Canadian groups sailed into them," he said.

## New York Times Lashes Dalton Who Blames Crisis On U.S. Prices

NEW YORK (CP) — The New York Times in a leading editorial today criticized Hugh Dalton, Britain's Chancellor of the Exchequer, for placing much of the blame for the present British crisis on rising prices in the United States.

(In his two-hour speech before the House of Commons Thursday Dalton blamed rising U.S. prices and "the rapidly increasing surplus of United States exports over imports" for the sudden worsening of Britain's economic plight).

The newspaper said that "that factor (price rises) could at the most account for a very minor part of the recently accelerated drain on Britain's dollars."

"Dalton pictured the world as suffering from general 'dollar starvation' although the fact is that gold and dollar holdings outside the United States today total between \$20,000,000,000 and \$21,000,000,000, or more than they ever were in history prior to 1945."

The Times called Dalton's statement a "decided anti-climax" to Prime Minister Attlee's address Wednesday. "Where Attlee's words were those of a leader rallying his forces against threatened catastrophe, Dalton's were querulous and defensive."

"Moreover, while the Prime Minister had stressed self-reliance in working out the British exchange problem, the nation's Finance Minister indicated that he was still thinking predominantly in terms of new stop-gap forms of relief. It was almost as though Attlee and Dalton belong to different parties."

## LONG RANGE VIEW

The Herald Tribune took a more long-range view of Britain's crisis, saying it would be "hardly appropriate for Americans to try to pass judgment on the 'sufficiency' of the drastic... program."

The paper concluded: "London, talking dramatically about the world 'dollar famine,' does not conceal the idea that the Attlee program may break dollar prices. We cannot continue to loan exports to economies which fail to show the will or ability to

get themselves on a self-sustaining basis; but neither... can we price ourselves out of a world market which we and others so badly need. The progress of the Attlee program will have a very significant bearing on American as well as British economic statesmanship."

## Facilities Urged For 2,000 Planes

ANCHORAGE, Alaska (AP) — Brig-Gen. Joseph H. Atkinson, commanding officer of the Alaska air command, said Thursday night Alaska must have facilities to serve 500 heavy bombers, 500 long-range cargo troop-carrier planes and 1,000 fighters. Explaining that he was expressing his personal rather than official opinion, he added: "These facilities should be available within three years."

## Crown Jewels Recovered

BATAVIA, Java (AP) — The Netherlands army announced today crown jewels of the Sumatran Sultanate of Siak, valued at more than \$1,000,000, had been recovered at Boekit Asem, Sumatra, and asserted papers found with the gems showed they had been confiscated by the Indonesians.

## C.P.R. Claims For Increased Rates Attacked By B.C.

OTTAWA (CP)—A multiple-punch attack on the basis of the Canadian Pacific Railway's case for higher freight rates was continued Thursday before the Board of Transport Commissioners, with British Columbia taking up the assault as Alberta left off.

The far-western province opened fire late in the day in the third of a succession of general financial submissions aimed directly at the C.P.R. It had been preceded by a joint Manitoba-Saskatchewan presentation and one from Alberta dealing with different aspects of the claims of the privately-owned line.

The British Columbia case—with chartered accountant Lionel Kent of Vancouver on the witness stand—was designed to show the C.P.R.'s Freight Department already was bearing a disproportionately high percentage of the company's financial load in relation to its passenger and other services.

It was just getting under way at adjournment, and it will be continued today.

Earlier, Alberta completed its evidence. Kenneth J. Morrison, Calgary accountant representing Alberta government, submitted these points:

1. All operations of a corporation should be examined to determine its financial need—basis of the railways' claims for a 30 per cent freight-rate increase.

(The companies contend only revenues from their rail operations should be taken into consideration in this case.)

2. Bringing non-rail earnings into the picture would add an estimated \$22,500,000 to the net

## Quarter Horse Beats Thoroughbred To Settle Argument

Crossing the finish line is quarter horse Barbara B, just two and a half lengths ahead of thoroughbred racer "Fair Truckle" in a quarter-mile match race at Hollywood Park, Inglewood, Calif. Barbara B, whose mother is an unknown mare, is owned by Roy Gill, Tucson, Ariz., cattleman, and was ridden by Tony Licitia, 26, of Mexia, Tex. Some 5,000 fans, dressed mostly in 10-gallon hats, witnessed the race.

earnings (before taxes) that would be considered in the case of the C.P.R.

3. Amounts set aside for tax provisions by the C.P.R. in the first half of 1947 suggest it now expects greater earnings than were indicated in its estimates given the board last winter. Tax accruals for the first six months are greater than the company had estimated for all of 1947.

4. During March, April, May and June, net railway operating income for the C.P.R. was up from 1946, though two poor months at the start of the year sent the net earnings for the whole period below the same time in 1946.

The circle is divided into 360 degrees because the Egyptians once thought the year had 360 days.

## Boards Of Trade Meet In P. Rupert

PRINCE RUPERT (CP)—About 100 delegates from 11 towns and five cities in central British Columbia met here for the 16th annual convention of the Associated Boards of Trade of Central British Columbia to consider more than 30 resolutions on regional national and international subjects.

Majority of resolutions are immediately directed at interests of central British Columbia.

## Discuss New Legion Unit At Cobble Hill

COBBLE HILL—Indication that a new branch of the Canadian Legion would be established at Cobble Hill, was given at a meeting here, called by the Malahat Branch, for discussion of a campaign to increase membership, and attended by 100 servicemen and women from all parts of the district.

Carl Fallas, chairman of the Victoria and District Zone Council and Robert Knight, Victoria zone representative, were present.

A recent meeting held by veterans of the Cobble Hill area who wished to form a separate branch as they felt there were sufficient potential members, was discussed, with H. G. Webber, president of the Malahat Branch, urging members to consider the fine record of the latter branch before deciding to separate.

Mr. Webber said he hoped that the rivalry between the two centres of population had not influenced members, but that a genuine desire to enlarge the work of the legion, prompted them to break away. He expressed regret that application for a new unit had not been made through Malahat Branch.

He promised the new branch, all the co-operation that the Malahat Branch could offer.

## Attempts Made To Burn Blast Schools In B.C.

TRAIL (CP)—The Trail Times in a newspaper story today said an outbreak of violence had been reported in the Doukhobor district near Grand Forks, on the international border about 30 miles west of here.

The paper said it had learned reliably that an attempt was made to set fire to the Doukhobor community school at Outlook, B.C., near Grand Forks, and a school in the same district was badly damaged by the explosion last week of a crude, homemade bomb.

Another report from Shoreacres, in the heart of the Kootenay River Doukhobor settlement, said a communal house owned by the sect was set afire early this week.

The reports follow a recent series of similar occurrences, all attributed to a radical sect of Doukhobors.

## Merchant Dies After Hold-up

MONTREAL (CP)—Louis Leblanc, 36, a grocery store keeper, died in hospital Thursday shortly after he allegedly was struck over the head by one of three men who entered his store and demanded money. Police arrested one man who allegedly took part in the hold-up. The others escaped.

## Helicopter To Fly Body Of Alpinist

MCHORD FIELD (AP)—An air rescue service helicopter from this air field will attempt Monday morning to bring out the body of Charles Shiverick, Cleveland, Ohio, alpinist killed on the slopes of Mount Waddington in British Columbia last month.

The plane will land on Tiedemann Glacier, it was announced here, and fly the body to Vancouver.

A C-47 transport plane will accompany the helicopter but will make no landings on the glacier.

St. Roch, during her career as an Arctic patrol ship, has spent many months in the ice. Here the ship is shown fast in the ice for the winter several years ago.

## 'Spiv' Fraternity Astonished At Attlee's Crisis Work Orders

By ED CREAGH

LONDON (AP)—"Who, us?" Around the greyhound tracks, in the most lurid west-end clubs, on the bomb-pocked street corners of the sprawling east end, the "spivs" looked up in astonishment today.

Prime Minister Attlee, determined that every able-bodied man take a hand in Britain's production drive, had declared war on the whole do-nothing, good-for-nothing "spiv" fraternity. In his crisis appeal Wednesday Attlee promised action against "these spivs and drones" who "contrive to make money in all kinds of dubious ways"—except working for it.

What is a spiv,

TIES THAT STARTLE

You'd know him if you met him. He's a young fellow, often in his teens. His expensive, black-market suit had padded shoulders and a wasp waist. The gaudiness of his necktie would startle a Hollywood director. His hair shines greasily and his eyes roam constantly—looking for somebody who wants to buy some clothing coupons, some hijacked whisky, a carton of smuggled nylons, a second-hand car guaranteed to run as far as the next corner.

Any kind of easy money is the spiv's business, with two big qualifications: He absolutely refuses to work for it and he won't let any record be kept of it.

"Wot—an' pay income tax? Take me for a chump?"

Of the 1,208,000 men "missing from the Ministry of Labor's register of the gainfully employed, probably one-fourth are

full-blown spivs. No more accurate count is possible. The spiv dodged the draft in wartime and any credentials he carries are phony.

In his present flashy form the spiv is native to postwar Britain, but he's brother to the Broadway heel and the new type of Paris black-market known as the "bof"—who gets his nickname from the first letters of the goods he deals in: Boeuf, oeufs and fromage—beef, eggs and cheese.

## 2 Policemen Held After \$46,500 Taken

TACOMA (AP)—Two Tacoma policemen were held without charge in the city jail today after recovery of \$46,500 in currency which disappeared from the trunk of a wrecked automobile early Wednesday morning. Police Chief William E. Farrar said. He said they admitted taking 47 packs of greenbacks from the wrecked machine.

## Bogus Unionist Sought In Vancouver

VANCOUVER (CP)—A bogus "union official" is being sought here by police following the complaint of two men that he duped them of \$380, by offering to get them jobs. He offered to get the men positions with one of two steamship lines operating out of here.

## 2 Ships Believed Held Temporarily In Amundsen Gulf

EDMONTON (CP)—Two veteran western Arctic schooners have been caught in the ice of Amundsen Gulf, about 1,200 miles north of Edmonton, on their first 1947 voyage into the interior of the Canadian western Arctic archipelago, it was learned here today.

The schooners are the Fort Ross of the Hudson's Bay Co. and the St. Roch, famous Royal Canadian Mounted Police patrol boat which during the war made historic west-east and east-west voyages through the Northwest Passage.

Likelihood of the imprisonment being temporary was seen in the fact the ice is last year's newly formed ice and that, therefore, it may be ice which has simply not "gone out" yet. It is expected to break up shortly.

The Fort Ross, an 150-ton schooner carrying a 250-ton load of supplies for western Arctic posts, left Tuktoyaktuk, north-east of Akilavik, about a week ago. With good conditions, the voyage to Coppermine in Coronation Gulf, the first stop, would be completed in three or four days, for the 700-mile trip.

The present location of the imprisoned schooners is nearly half way to Coppermine from Tuktoyaktuk.

The Fort Ross is commanded by Capt. R. J. Summers and Sub-inspector Henry A. Larsen, who piloted the St. Roch on its Northwest Passage voyages, is again captaining the R.C.M.P. patrol boat. Both are veterans of Arctic Sea travel.

The St. Roch went into the western Arctic this season recently from Victoria around the Alaskan peninsula. She made the voyage from Point Barrow, Alaska, to the present location in three days, indicating the Arctic's permanent packs of "old" ice have been cleared away from the coastal sea lanes.

## Cyclist Dies

NEW WESTMINSTER (CP)—Allan Barnes, 16, who was critically injured Tuesday night here when he slipped off his bicycle under the wheels of a truck, died Thursday in hospital here.

## Famed Rapids Ship Refloated Unharmd

CORNWALL, Ont. (CP)—The Canada Steamship Lines' Rapids Prince, which has shown thousands of tourists the beauties of the St. Lawrence River, passed through Morrisburg canal today, free after being aground near Ogden Island, two miles west of Morrisburg, for more than 24 hours.

The veteran rapids-shooting liner did not appear to be damaged by the mishap. The Rapids Prince was aided in working herself free from the muddy bottom by the salvage tug, Salvage Prince and the Salvage Queen of Kingston.

Reports reaching here indicated that the liner went aground Wednesday night with a broken rudder chain.

At Montreal, company officials said the Rapids Prince will be back on regular service out of Prescott, Ont., on Sunday.

Early secrets of watchmaking were closely guarded and handed from generation to generation within families.

## BEWARE OF THE ULTIMATE

WHETHER OR NOT ONE FEELS THAT the Socialist form of government is the one that can best solve the problems of national and community living with which mankind in the present state of civilization finds itself surrounded, it is easy to experience a sense of sympathy for Mr. Attlee and the members of his cabinet as they struggle with their current difficulties. Their problems are so great, their position is so vital, and the people whom for the present they govern are of such sterling character that the average observer, no matter what his political complexion, tends to disregard the ideological nature of the current British government and view these leaders broadly as a well-meaning group of men conscientiously grappling with heavy national problems.

But for those who may take a closer view, there is in the present situation a dramatic illustration of Socialism at work—a demonstration which is superimposed on the wider field of the struggle for survival of a great nation. Beseated by almost insuperable postwar national and international problems, its development highlighted by the magnitude of the tasks with which it must cope, Socialism in Britain is exhibiting in a speeded-up, concentrated way the fundamental trend inherent in its philosophy—a trend which would be unfolded more slowly by Socialist regimes in sunnier circumstances. It is proving that once the march toward personal regimentation and over-all national governance is started, there is little likelihood of turning back.

There is only a difference of degree between nationalizing an industry and nationalizing the men who work in it. There is a constant temptation, once the Socialist pill has been swallowed, to take the obvious way out of national impasses: to order Labor to do what the government wishes it to do, and to back up the order by law. Admittedly, some of Britain's government leaders take this step with misgivings—with a sense of losing what had been gained through long struggle against the "capitalist" hierarchy in the past. But their acquiescence is inevitable. The need is there. The power is there. They act.

The story in Britain has been a long and involved one. Nationalization of leading industries, peacetime conscription for the military forces, a whitening here and there at hours and wages concessions granted at an earlier time—and now the passage of the significant "crisis powers" bill. Home Secretary Cuthbert Ede, in supporting the measure, said, "We believe that this is a crisis likely to move forward with such rapidity that we should have power to deal drastically and swiftly with awkward situations that may arise." The fact is that there is always a "crisis" of one kind or another; there is always the need to have "power to deal drastically and swiftly." But few are the men in positions of administration, fired by Socialist concepts, who can escape the impulse to master the former by use of the latter—a trend which ultimately must lead down the road to complete state regimentation. This is a condition repugnant to all Britons.

## FOR THE YOUNG

THERE WILL BE WIDE AGREEMENT with the stand of the Citizen's Memorial Arena Committee that skating and hockey facilities now nearing completion should be used primarily by the children of this city, with other interests taking a secondary place. Intercity and commercial league games, of course, will be catered for, since these will be of interest to youth as well as to the residents of Victoria who have given their support to the project. But the nature of the arena—a memorial to those who fell in the war—should ensure that the boys and girls for whose future the sacrifice was made will receive maximum use and pleasure from the project. Canada's supremacy as a hockey country is based on the fact that so many of her young men were able to skate and chase a puck almost as soon as they could walk. The new arena will provide our youth with the opportunities of which our climate, perhaps fortunately, deprives them. It is to be hoped that they will be permitted to take full advantage.

## GYPSY SMITH

SEVEN YEARS AFTER HE HAD PASSED the 80th milestone of his life, Gypsy Smith died, with apparently little suffering, aboard the liner Queen Mary on her voyage to New York this week.

Rodney Smith was a unique character. Some of his critics may have called him a showman. Had he been asked to describe himself, he probably would have pleaded guilty to the appellation. But he was more than a showman. He was more of a tub-thumping evangelist. He was a crusader—albeit a simple man. He was born in an encampment near Epping Forest. True to the gypsy tradition of that period in British

history, and responsive to that nomadic instinct of the tribe, young Smith peddled his wares to help to sustain his family. He sold clothespins and utensils of tin which his father made. One has to know the environment of those communities in Britain in which gypsies moved and had their being half a century and more ago to understand and value the artistry which entered into the fabrication of these commodities now produced with assembly-line technique.

As Gypsy Smith retires behind the great veil, he will be numbered among those colorful souls that included Moody and Sankey, Fullerton and Smith, and others of that noble galaxy of evangelists who have trodden the highways and byways of the world—sincere in their beliefs but unimpaired of orthodoxy.

## YOUTHFUL AMBASSADORS

ONLY A FEW DAYS AGO 46 YOUNG Britons left their native land on a new type of sightseeing adventure. Aircraft of the Royal Air Force winged them over the Atlantic and three Dakotas landed them at Patricia Bay airport yesterday afternoon. They tarried awhile at several Canadian cities on their way to the Pacific Coast—and before they trod terra firma here they obtained a glimpse of the vast expanse of water which separates the Dominion from the Orient. Time and weather conditions militated against a more extended view.

There is more in this visit than may meet the casual eye. While these young air cadets from Britain are seeing new sights and absorbing some idea of how people live and have their being on this side of the Atlantic, a similar number of Canadian boys are doing the "grand tour" of the British Isles and parts of war-torn continental Europe—doubtless thrilled by many strange sights and mindful of the basic meaning of the interchange of ideas for which they are the agents.

Canadians, of course, are well aware of the important work which the Air Cadet League of Canada has done in recent years and is still doing. Nothing in its operations resembles in the least degree the type of youth movement which responds to the totalitarian heel-clicking ritual of a system laid low by the forces of liberty and freedom two years ago. The Teuton misnomer of "Strength-Through-Joy" forms no part of either the Canadian or British plan of instilling in their respective youth the desire for knowledge and the acceptance of friendly guidance in the wide application of citizenship responsibility.

And it should be noted that the boys from Britain who were welcomed at Patricia Bay yesterday afternoon—like their counterparts who are now in the United Kingdom—were chosen to participate in this admirable exchange of visits for their general merit as reflected by their individual concepts of what their respective countries expect of them in the trying days ahead. Here surely is a manifestation of the sound competitive spirit—the basis for the development of the rising generation who must have knowledge in order to discharge the tasks to which many of them eventually will be called.

## THE LABORER IS WORTHY

THE PLIGHT OF THE SCHOOL BOARD for District 70 at Port Alberni, where 28 teachers must be found before school opens in September, is fortunately not typical of many other points in the province at the moment, but there apparently still is a general shortage of school teachers sufficient to arouse public interest and concern. At that, the situation throughout British Columbia is said by Department officials to be much better than last year. It was advanced as one proof of improving conditions which began last term that "from Easter on, no schools were closed for lack of teachers."

That is good news, but it surely indicates a minimum level of adequacy for what has been rightly termed our most important national industry, the training and education of young citizens. That teachers from the prairie provinces continue to pour in applications to the British Columbia Education Department indicates that conditions and pay in this province are held in higher regard than those on the other side of the Rockies. Yet the situation might better be described in the opposite way—that conditions there are worse than here.

The profession cannot hope to attract capable men and women year after year if the salaries for teaching positions are not placed at levels which attract intelligent and industrious persons. When teachers could in some cases double their pay by leaving the classrooms for shipyards and factories during the recent war—apart from the many eligible men and women who joined the forces—it took more than average devotion to duty to remain in the ranks of the pedagogues. Education, quite apart from its commercial value as a preparation for the highly technical and skilled jobs of modern life, is of vital importance as the foundation of our democratic system. Dictatorship, whatever form it takes, thrives on ignorance and apathy. Education is the only sure defense against it, and the only basis on which can be built that higher form of political mechanism—democracy—which we hold to be the best of all forms. Let us make a career in education attractive to the best minds and characters in our population by providing adequate pay for this important work. We shall be building a solid foundation by so doing.

If the baby isn't sick, a wise doctor gives it sugar pills, anyway. Otherwise the worried parents would go to another doctor,

## Matter Of Fact

By JOSEPH and STEWART ALSOP

### INTERNATIONAL LABOR WAR

THE PATTERN of the future in the whole labor scene may well be established in the next few months. On the one hand, the outcome of the current negotiations between the C.I.O.'s United Automobile Workers and the Ford Motor Company will become a standard of measurement in post-Taft Hartley Act labor relations. On the other hand, a test of strength of even more significance for the long term future of American politics, may also be in prospect. For it is possible that all-out, eye-gouging, shiv-sticking political warfare within the C.I.O. itself is in prospect.

THE BATTLE, if it comes about, will be between the C.I.O. leadership, including President Philip Murray, and the C.I.O.'s Communist-dominated minority. At present an uneasy truce between these factions hardly masks a dagger-and-bludgeon, poison-in-the-soup struggle which goes on behind its facade. But those who have the best means of knowing what goes on in Philip Murray's always honest—but often vacillating mind suspect that this truce may soon be broken; indeed, that the process has already begun. Such mind-readers have in the past been forced to rely on the most inconclusive signs and portents—Murray's sudden emotional storm on the Communist issue before the automobile workers' board, a more recent and more violent explosion before the C.I.O. executive board, and so on.

THE OFFICIAL C.I.O. newspaper, "The C.I.O. News," for a long time edited by slight, professional Len De Caux, has rarely deviated from the straight Stalinist line. Thus, when the British Parliament voted to free India, "The News" not only joined "The Daily Worker" in implying that this was mere British imperial trickery. The editors also exhumed ancient photographs from the files, purporting to show British soldiers savaging the Indian natives. By odd coincidence, Murray had just signed a cable to British Prime Minister Clement Attlee congratulating him and the British people on their great and historic act. When Murray saw the current issue of his own organization's official newspaper, he hit the roof. De Caux, and two of his cohorts received their walking papers. "The C.I.O. News" is now in other hands.

THIS WAS A MAJOR development in C.I.O. internal politics, since the organization's newspaper is the main channel of official C.I.O. policy to the rank and file. It has, moreover, been followed by other developments. Robert Lamb, personable secretary of the C.I.O. legislative committee, has resigned. The secretaryship of the legislative committee is another key spot, and most of the non-Communist C.I.O. leaders consider Lamb's departure a victory for their side. Finally, Emil Rieve, textile workers' chief, has been given office space and an important policy-making position in C.I.O. headquarters.

FOR ALL THESE developments, final responsibility rests with Philip Murray. It is thus little cause for wonder that careful students of "The Daily Worker" have noted a certain falling off in that journal's tendency to sing paeans of praise to "our great leader, Philip Murray." To be sure, "The Worker" has yet to attack Murray with exquisite delicacy for which Andrei Gromyko set the pattern when he remarked of his compatriot, Victor Kravchenko, that "when a dog has nothing else to do, it will often lick its belly."

FOR IN THESE CIRCLES there is a somewhat tentative tendency to believe that Murray is at last determined to move really decisively in the next few months, before the next C.I.O. convention, to solidify non-Communist control of the C.I.O. If that is indeed Murray's intention, Lee Pressman, C.I.O. counsel, and key "left-wing" strategist, is certain to go the way of De Caux and the others. When and if that happens (and it is still a very big if) it is universally expected in the C.I.O. that Communist knives will be sharpened for the most ruthless kind of political warfare against Pressman's present boss, Philip Murray.

ONE REASON WHY Murray has already moved with such unaccustomed decision is, in the opinion of those who know him, that he is a deeply patriotic man, increasingly disturbed by the developments abroad, and by the relationship between these developments and the American Communist party. Another reason is undoubtedly Walter Reuther's remarkable victory in the devoted Communist effort to take over the United Automobile Workers. Reuther's success has almost certainly assured non-Communist control of the C.I.O.'s largest union, which in turn gives Murray a solid base from which to operate.

THERE IS AN OBVIOUS moral to all this. As long as the United States economic system functions reasonably well, in the context of civil and political liberty, the American labor movement itself can be relied upon to deal with the tiny minority of its members who serve a foreign interest. The Communists can hope to gain control of American labor only in two ways. One is the total failure of the economic system, in which case it no doubt deserves to be replaced. The other is a real threat to traditional American civil liberties, such as contained in that legal monstrosity, the House-passed Rees bill. Such a threat will tend to rally a really important segment of the American left, for the first time in its history, around the Communists.

## Surgery Needed?

## The New Voice Speaks Well

By JAMES THRASHER, From New York

THE VOICE of a new government has been raised in the United Nations. India, though not yet wholly independent, has spoken through her interim government against the Dutch military campaign in Indonesia.

The protest was announced by the interim government's vice-president, Pandit Jawaharlal Nehru. His statement accompanying the announcement is worth the thought of the Security Council members and, indeed, of all of us. For Pandit Nehru turned attention from the continuing two-world differences that sometimes seem to threaten the U.N.'s existence, and recalled some of the half-forgotten purposes for which this world organization was formed.

### STATED IN CHARTER

The Charter includes the following among those purposes: "To maintain international peace and security . . . to take effective collective measures for the prevention and removal of threats to the peace, and for the suppression of acts of aggression or other breaches of the peace . . . to develop friendly relations among nations based on respect for the principle of equal rights and self-determination of peoples."

Clearly the Dutch action is not

based on recognition of equal rights and self-determination. It is based on the colonial concept of the white man's racial, intellectual, cultural and physical superiority.

As Pandit Nehru puts it, "Apart from the merits of the Indonesian case . . . the real question and the larger question is that of military action and aggression of any nation over any other nation, without reference to international arbitration. Who is to judge merits—the nations that attack? Obviously that is not good enough."

### SAT QUIETLY BY

"Asia, having suffered greatly in the past from foreign domination and exploitation, is determined to end it. Any attack on the freedom of people in any part of Asia affects the rest of this great continent. . . . An attempt to continue colonialism will not only endanger peace but will also come in the way of economic recovery the world over."

It seems inconceivable that the Netherlands government is not aware of the truth of those words. It seems even less conceivable that the government of a country which suffered so brutally from Nazi aggression, and which saw its cities destroyed and its civilians slaughtered with

out pity, should now employ essentially the same methods against the Indonesians.

It may be wondered, too, why the members of the Security Council, who "shall determine the existence of any threat to the peace, breach of the peace, or act of aggression," sat quietly by through all this.

Here was a case where the council might have functioned quickly. Whatever the merits of the case, the Dutch had no right to settle it by military operations, including the aerial bombing of cities. The United Nations was set up mainly to prevent just such action.

### TO RESTORE FAITH

The council might also have restored some waning prestige by acting quickly. Here at last seemed to be a case in which the five permanent members could reach unanimous agreement.

Well, it may not be too late to remedy the damage. A decisive use now of the Security Council's full power will not restore the lives destroyed needlessly in Indonesia. But it may prevent a continuation of unnecessary bloodshed and, incidentally, restore faith in the possibility of world peace preserved through the United Nations.

## 'Small-Time Ajax' Defies The Law

From the Montreal Star

HAROLD WINCH, leader of the C.C.F. in British Columbia, whose unreflecting loquacity has been observed on previous occasions, has broken out again, this time at a labor meeting in Vancouver.

Mr. Winch does not, it appears, approve of Bill 39, recently passed by the British Columbia Legislature of which he is a member. The Bill embodies the new labor code for the province. It was opposed by the C.C.F. members, as was their right, but carried by that part of the legislature which speaks the will of the majority of the people of the province.

### UNDERMINE AUTHORITY

At this point the C.C.F. leader parts company with the idea that the law of the land is to be obeyed by the people of the land, all the people—not just some of them. According to the report the C.C.F. leader told his audience that it was "absolutely ethical to oppose the law" on certain occasions, since it was a "capitalist" law and hence, presumably, not deserving obedience, unless one felt like obeying it. In other words the leader of a party in one legislative body would undermine the authority of that body by defying the laws which it enacts.

The general adoption of the Winch philosophy might have results which its proponent did not consider. Over the mountains from his province there is another the government of which

no doubts meets with Mr. Winch's approval. But if C.C.F.'ers in British Columbia can "ethically" thumb their noses at laws enacted by a non-C.C.F. government, would it not be equally the privilege of the people of Saskatchewan who do not support the C.C.F. to do the same thing when legislation of their C.C.F. government does not meet with their approval?

## Export Dresses

U.K. Information Office

In the latest London wholesale collections, many of the dinner gowns are being made both with an eye on Britain's export market and a new development in the home market. In the United Kingdom, brides-to-be, when shopping for their wedding gowns, often ask first to see dinner dresses. These, being moderately high at the neck, with some elaboration of the skirt, not to speak of the varied length of sleeve, can be used later for very formal outdoor occasions.

Even a full evening dress, if it happens to be equipped with a bolero may become a temporary wedding dress. Choice of materials, too, is considerably wider. White satin is still the bride's favorite but it has long since ceased to be the only fabric she will look at. Today, there is a range of fine crepes, chiffon, taffeta or other formal materials.

### PRETTY GRIM

Not so very long ago Mr. Winch threatened dire things to those people of British Columbia who had opposed his party, or who remained contumelious, once the C.C.F. got into power. He did not say what would happen to all these people but it sounded pretty grim. We were a little nearer to the Hitler regime and the immediate effect throughout Canada of an attitude so strongly reminiscent of that gentleman was so unfavorable to Mr. Winch and his party that explanations were in order—and forthcoming. But had Mr. Winch become fuhrer of British Columbia and made some laws would it have been tolerable to him had some of the electors denounced them as "socialistic" and refused to obey them? Or is it only in British Columbia and among the C.C.F. there that the privilege of disobedience to any law who happen not to like exists?

### EXISTS NOWHERE

Of course it does not exist there, or anywhere else. Mr. Winch would seem to have been just carried away again, as he was on the other occasion: A small-time Ajax, bound from time to time to defy something. It would occur to most people that the best way to attain power under a system based on democracy would not be to do one's best to frustrate democracy. But perhaps Mr. Winch is not much interested in democracy.

## Global Survey

By DEWITT MACKENZIE  
Associated Press Foreign Affairs Analyst

CIVIL WARS in Europe and Asia, bloody reprisals in Palestine and counter-reprisals in England, the eastern and western blocs gunning for each other at close range—all these untoward events and many more make one view with respect Gen. Eisenhower's remark in Billings, Montana, the other day that "it looks more and more as though the United States will have to accept a two-world concept when we have been working for a one-world plan."

About that time Attorney-General Tom Clark delved into the same subject in a speech at the International Sunday School Convention at Des Moines. He said the clear problem posed before mankind is this: Can the peoples of this earth live in world brotherhood? If they cannot, then the teachings and accomplishments of the last 2,000 years will be for naught. Our civilization will disappear in a series of atomic explosions.

### CRUDE NO LONGER

Why is the world divided against itself? Clark answered that bluntly:

"The time has passed when we can dismiss the spread of atheistic Communism as a phenomenon of the lunatic fringe. No longer do we visualize the destroyers of democracy and Christianity as a bomb-carrying, bewiskered man in heavy boots. Today it is streamlined, in all kinds of guises, sometimes behind a democratic front. The principles of Christianity imply justice to all. The tenets of the police state are just the contrary. They pass on to their destruction over the changing whim of dictators—and the ruin that follows is great."

That being the situation, where do we go from here? Attorney-General Clark says:

"To put it in the language of our day—we must accept and practice the teachings of the Nazarene—or else."

In many parts of the world men are turning back to spiritual and moral values. Religious conferences are being held in both hemispheres. Here in America at the moment over 600 delegates from 30 states and numerous foreign countries are attending the North American Assembly for Moral Rearmament at Mackinac Island, Mich. A similar M.R.A. meeting is being held in Caux, Switzerland. Even in countries which have anti-religious governments, the ferment of religion is at work.

Upon this trend many statesmen and observers are pinning their hopes of solving our present difficulties and arriving at one world.

### GENEROUS OFFER

Washington Post

In an exchange of small talk at a luncheon at Bozeman the other day, Mr. Ernest Eaton, the Lieutenant-Governor of Montana, is said to have remarked that the state is still somewhat underpopulated and would welcome more settlers from the crowded urban east. "Well, sir," Governor Dewey is reported to have replied, "you can have our 50,000 Commies if you want 'em."

### IT CAN HAPPEN HERE

Financial Post

Political apathy isn't only a characteristic of the prewar Germans. Few Canadians take more than a vague, desultory and ill-informed part in determining the personnel and policies that govern us. The proportion who vote is only fair and in municipal affairs it is scandalously low.

As we lecture the defeated Germans about their past sins of political omission and commission, we should apply the lesson right at home. The quality and alertness of our own citizenship is far from perfection. And it can happen here.

### IMITATION

Australian News Letter

Says the Sydney Morning Herald columnist: In the front of every Australian passport there's a note signed by the Governor-General asking foreigners to allow the bearer to proceed on his way "without let or hindrance."

For the past few years they've been signed by the Duke of Gloucester—the family signature "Henry."

A man off to South Africa soon after the appointment of the Duke's successor, Mr. William J. McKell, put his passport in to the authorities to have an amendment made to his accreditation.

When he got the passport back he found that some wag in the Passport Branch had crossed out "Henry" and substituted in bold copperplate "Bill."

## Excessive Heat Partly Blamed For 80,000 Car Makers' Idleness

DETROIT (AP)—More than 80,000 of the automotive workers of the United States were idle today as the result of a combination of labor disputes, materials shortages and absenteeism, the latter ascribed somewhat broadly to excessive heat.

Meanwhile production fell off sharply from last week, figures compiled by the trade paper Automotive News showing 79,647 units this week compared with last week's 95,711.

Layoffs for 55,500 Ford, Mercury and Lincoln plant workers and 10,000 Studebaker Corp.

hourly-rated employees have been attributed by management spokesmen to a strike of 7,000 Murray Corporation of America production men.

At the Murray plants, closed for two weeks, the United Auto Workers' Union (C.I.O.) is demanding immunity from a provision of the Taft-Hartley labor law which gives employers the right to sue unions whose members engage in unauthorized strikes.

Briggs Manufacturing Co. sent 5,600 employees home Thursday after about 1,000 failed to report for work. This in turn forced Packard Motor Car Co. to close its final assembly lines until next Tuesday, making idle 1,500 of its workers. Briggs management spokesmen attributed its absenteeism to "the heat," adding that plant temperatures registered 83 degrees.

Also attributed to the heat by management spokesmen was a walkout of 1,800 workers in Chrysler Corporation's gear and axle plant and De Soto car division.

## Courts-martial For Allied Officers

ROME (AP)—The United States Army Public Relations office announced Thursday that two American and two British officers of Allied Military Government in Trieste and score of Trieste contractors have been rounded up on charges of irregularities in the Public Works Division.

Maj. E. H. Richardson of Wayne, Pa., was accused on seven counts of "corruption" involving about 20,000,000 lire (\$7,000 at official rate) in connection with contracts "granted by him" the announcement said. The statement said Capt. Thomas Cockerham had been returned under arrest from the United States.

The Americans will be tried by a United States court-martial and the British officers, Maj. J. R. Squire and Capt. D. A. Wilde, will be tried by their own army courts.

## H.M.C.S. Naden Wins Navy Regatta

A special event at the Navy Regatta at Esquimalt Thursday was two boats manned by sailors dressed as nursing sisters which took part in one of the races. Both boats, however, had authentic nursing sisters as coxswains. The boat shown here is having some difficulty in making a start.

With a score of 22 points, seamen of H.M.C.S. Naden carried off an easy victory at the Navy week regatta held in Esquimalt Harbor Thursday. Closest competitors were from crews of H.M.C.S. Crescent who ran up 18 points.

Others competing in the program were personnel from H.M.C.S. Ontario who placed third, and H.M.C.S. Rockcliffe, fourth. Crews from the shore establishment of H.M.C. Supply and Secretariat School, H.M.C.S. Royal Roads, also took part in the races.

Many spectators were on hand to see winning teams awarded trophies and prizes by Rear Admiral E. Rollo Mainguy, O.B.E., R.C.N., Officer Commanding Pacific Coast. A.C.M.R. P. D. Budge, D.S.C., R.C.N., assisted by a committee, was in charge of the races.

A special feature was an event in which two boats, carrying sailors dressed as nursing sisters, took part in a race. Both boats, however, had authentic nursing sisters as coxswains. The craft under the direction of Nursing Sister B. Goodfellow, R.C.N., came first.

Judges were Lt. Cmdr. R. P. Welland, D.S.C., R.C.N., H.M.C.S. Royal Roads; Lieut. R. C. Willis, H.M.C.S. Naden; Lieut. G. G. Ingersoll, H.M.C.S. Rockcliffe.

Regatta results were as follows:

Race No. 1, young seamen—Chaudiere Division of Naden, first; Ontario, second; Camrose Division of Naden, third; Assiniboine Division of Naden, fourth. No. 2, miscellaneous (all cooks, stewards, writers, sick bay and supply ratings)—Rockcliffe, first; Crescent, second; Naden, third, and Ontario, fourth. No. 3, stokers (all engine room ratings)—Crescent, first; Ontario, second, and Naden, third. (Rockcliffe was disqualified).

No. 4, chief and petty officers—Naden, first; Ontario, second; Crescent, third, and Rockcliffe, fourth.

No. 5, officers—Royal Roads, first; Crescent, second; Naden, third, and Ontario, fourth. No. 6, communications—Naden, first; Rockcliffe, second; Ontario, third, and Crescent, fourth.

No. 7, artisans—Naden, first; Rockcliffe, second, and Ontario, third. No. 8, open cutter (open to all ships and establishments)—Supply and Secretariat School, first, and Naden, second.

No. 9, seamen—Naden, first; Crescent, second; Ontario, third; Royal Marines of H.M.S. Kenya, fourth, and Rockcliffe, fifth. No. 10, all comers (open any type of service boat)—Ontario, first; Royal Roads, second; Crescent, third, and Naden, fourth.

## Jockey Bailey To Answer Stewards On Riding Tactics

VANCOUVER (CP)—Jockey Paul Bailey Thursday was ordered to appear before the stewards at Hastings Park, for a full inquiry into the running of the fifth race.

Bailey's mount, Topsy Lass, won the race, but was disqualified and placed third after a protest lodged by Jockeys W. Marsh and Jimmy Schmied was allowed. Marsh, up on Palermo, and Schmied aboard Gay Guy, claimed Bailey deliberately moved his mount over on them, forcing them to the outside rail and creating a foul.

Palermo was given first and paid \$13.20, \$6.50 and \$2.85, while Gay Guy returned \$7.60 and \$3.90 for second.

For the second straight day, public choices failed to come up to their expectations. Hazelgreen in the first race was the only favorite to finish in front. Saloptic paid the biggest price of the day—\$43.50—in winning the third race, while Kanuki breezed home a surprise winner in the seventh to return \$28.85.

World Wide was an upset winner in the featured handicap and paid \$23.10 for \$2 straight tickets.

First race—Claiming, purse \$800, three-year-olds seven furlongs: Hazelgreen (Neffinger) \$3.35 \$2.00 \$2.50; Point Rating (Bundquist) \$4.10 \$4.35; High Brow (McGowan) \$5.70. Time, 1:26. Also ran: Hindu Prince, Camp Meeting, Boston St., Miss Yank, Barlee (developed nose bleed, dropped out).

Second race—Claiming, purse \$600, three-year-olds and un. foaled in Canada, seven furlongs: Hi Duke (Neffinger) \$9.00 \$5.50 \$3.75; Plucks Jake (Marsh) \$7.75 \$3.75; Miss Exidia (Walker) \$4.10 \$4.35. Time, 1:26. Also ran: Melisse R., Sun Yell, Paduan, Glenboro, Coon Dog. Daily double, \$16.80.

Third race—Allowance, purse \$800, four-year-olds and un. seven furlongs: Saloptic (Johnson) \$43.50 \$10.30 \$3.50; Ten-Three (Neffinger) \$3.90 \$2.85; Audrie (Robertson) \$2.85 \$2.40. Time, 1:36. Also ran: Western Bomber, Kenny, Gallward, Gallant Chief, Linger, Loner.

Fourth race—Allowance, purse \$500, three-year-olds and un. foaled in Canada, seven furlongs: Straddy (Johnson) \$8.50 \$3.80 \$2.90; Dry Year (Marsh) \$3.90 \$2.95; Beach Drive (Connell) \$4.30. Time, 1:29. Also ran: Broad Oak, Pun Fest, Paris Doll, Red Onslaught, Ann Brova.

Fifth race—Allowance, purse \$800, three-year-olds and un. one mile and one-sixteenth: Palermo (Marsh) \$13.20 \$6.50 \$2.85; Gay Guy (Schmied) \$7.60 \$3.90; Topsy Lass (P. Bailey) \$2.40. Time, 1:50. Also ran: Nalod, Bell and Chain, Lord Pebble.

Sixth race—Claiming, purse \$800, three-year-olds and un. one mile and one-sixteenth: Rural Parade (Rob'tson) \$12.10 \$5.20 \$4.10; Dark Lassie (Johnson) \$3.60 \$2.90; Oak Commander (Walker) \$4.30. Time, 1:52. Also ran: Pepper Pot, Yeo Marcus, Money Hips, War Jig.

Seventh race—Handicap, purse \$1,200, three-year-olds, seven furlongs: World Wide (Bovine) \$23.10 \$10.40 \$7.35; Gala Hal (Connell) \$4.30 \$2.40; King of War (Neffinger) \$4.30. Time, 1:29. Also ran: Row River, Lamohr, Polly Wales, Sir Achit, Mad Apollo.

Eighth race—Claiming, purse \$800, three-year-olds and un. one mile and one-sixteenth: Kanuki (Miller) \$28.85 \$12.30 \$4.60; Dalmahov (Bovine) \$4.60 \$2.70; Ocean Moon (Connell) \$4.60. Time, 1:24. Also ran: Meia M., Pater Neph, Talipot, Alpine Galates, Brown Barb, Quirella, \$62.20.

## U.B.C. Appointment For E. D. Woodward

OTTAWA—The Dominion Department of Agriculture today announced the appointment of Eugene Douglas Woodward, M.S.A., to have charge of the staff of its economics division at the University of British Columbia.

Mr. Woodward comes of pioneer British Columbia stock. He was born in Nanaimo, and attended public schools in Nanaimo and Saanich. His high school training was obtained in North Vancouver High School from which he graduated in 1927. Before entering the College of Agriculture, University of British Columbia, from which he graduated in 1933 with first class honors, Mr. Woodward had a variety of business and professional experience, including banking and teaching school and one season as fish buyer on the north coast of British Columbia.

On his graduation from the University of British Columbia, he was attached to the Department of Agricultural Economics at the university and conducted a study of poultry farm management in coastal British Columbia. He received his master's degree with first class honors from the University of British Columbia in 1945 and subsequently has had the advantage of additional graduate work at Oregon State College and Ohio State University. Since 1945 he has been an instructor in the Department of Agricultural Economics at the University of British Columbia which position he held at the time of his appointment to the Dominion Economics Division.

An increase in the War Veterans' allowance is being sought by the Britannia Branch of the Canadian Legion. At its meeting Tuesday night, the branch decided to seek the full support of all local legion units in this and referred it to the zone council for action.

### SERPENTS FIGHT IN CEREMONY OF HOPI CLOUD CLAN

The Hopi Indians are fond of having festivals. These have to do with their old religion, and they serve to attract white visitors to their villages.

In one festival the members of the Patki, or Cloud, clan perform a kind of play which lasts from the time the sun sets on one evening in March until it rises the next morning. There are six acts in the play.

At the start, several men enter a kiva, which is lighted only by a bonfire. The leader of the band, a chief, holds a blanket so that it blocks most of the light from the fire. Almost in total darkness, the other men place a cloth screen over one end of the room.

Then the chief sets his blanket aside, and the persons who are watching see a painted screen bearing images of lightning, clouds, corn maidens and the god of seeds.

There are six holes in the screen, and out of them come the images of large snakes. The bodies of the animals are formed of cloth which has been stretched around rings. The head of each

(Answer to previous puzzle)

## May Alter Zones For Bus Loading

The Greater Victoria Transportation Committee will meet next week to discuss placing of loading zones for buses throughout the area, Ald. H. M. Diggon, committee chairman, said today.

Preliminary discussions with the B.C. Electric Railway Company and Vancouver Island Coach Lines have already been held, Ald. Diggon said because it has been found that many of the present zones are not providing the best service for the riding public.

Most of the present zones, particularly in the commercial downtown areas were established arbitrarily in the past by police and traffic authorities, Ald. Diggon said.

"The service to the riding public must be our first consideration," he commented, "and with an a-bus system, middle of the street loading and unloading is now impractical. Provision must be made to take passengers to curb-side at frequent intervals."

## Soviet Union In 1-Week War Won Huge Influence In Japan, Korea

By RUSSELL BRINES

TOKYO (AP)—Russia has employed its one-week war against interior Japanese opposition in 1945 as a springboard to vast influence in the occupation of Japan and Korea.

Aided by technical status as a co-belligerent in the Pacific, the Soviet has brought the threat of civil war to Korea, the menace of continued class strife to Japan, and immense new prestige to Russia in the Pacific.

Occupation officials in both countries must make every important policy decision with one eye on Moscow.

When Russia opened hostilities Aug. 8, 1945, Japan had been defeated.

Five months earlier, Soviet officials had received initial Japanese overtures for peace. Two days before, the first atomic bomb on Hiroshima had given Japanese militarists the necessary excuse for quitting.

In the early war years, the threat of Russia had kept the crack Japanese Kwantung army in Manchuria. Its top divisions, if committed at the front, could have made the fighting bloodier.

In that sense, Russia was much more important as a neutral than as a belligerent in the Pacific.

### FOUR MAIN GAINS

Russia's main gains from that one week of combat were:

1. By promising to open hostilities, Russia won the bargain of Yalta in February, 1945, which enabled the Soviet to reclaim southern Sakhalin Island and to gain the Kuriles. This put Russia on Japan's doorstep—constant stimulus and a constant irritant to the conflicting Japanese social and political currents.

2. With its new bargaining status, Russia obtained the December, 1945, Moscow agreement which produced the explosive subdivision of Korea at the 38th parallel and a five-year trusteeship over the liberated country which stimulated internal political turmoil.

3. By stripping Manchurian industries as "war loot," Russia made Japan poor for payment of reparations.

4. As a co-belligerent, the Soviet became a member of Asia's "big four" on peace matters, won a seat or an opposition position at the peace conference, and became a member of the 11-power Far Eastern Commission and the four-power Allied Control Council for Japan.

Miss Elizabeth Welch, Langford, is spending a vacation with her brother, Mr. C. Norton Welch, Quebec, B.C.

Mr. and Mrs. George Carr, Dunford Road, Langford, have their granddaughter, Miss Corinne Smith, visiting them from Crofton, V.I.

Mr. and Mrs. Lyle Hartley with their two children, Lucky and Stephen, are the guests of Mrs. Hartley's parents, Mr. and Mrs. H. W. Hicks, Langford Lake.

Mr. and Mrs. James Riddall came from North Vancouver on Thursday to be the guests of Mr. and Mrs. E. F. LeQueune, "Forest Gate," Leigh Road, Langford Lake.

Mr. and Mrs. H. F. Hockey, of Calgary, are the guests of Mr. and Mrs. E. R. Sim, Joffre Street.

Mrs. D. O. Thomas has returned to her home on Moss Street, after spending a month holidaying in Nelson.

Mrs. H. G. King is a visitor from Medicine Hat, the guest of Mr. and Mrs. D. H. Smith, Station Road, Langford.

Mrs. Hal Gonder, Marine Chalet Apartments, has as her guest for the next ten days, Miss Winnifred Burwash, a graduate of the Royal Victoria Hospital in Montreal.

Out-of-town guests who attended the McLaren-Houston wedding Thursday evening at 8, in the First United Church, were Mr. and Mrs. T. McLaren, Mr. T. McLaren Jr. and Miss R. Smith, all of Winnipeg.

Following a six-week motor trip to Nelson, Vancouver and Parksville, Mr. and Mrs. W. L. Hardie, with their daughters, Misses Sheila and Jane Hardie, have returned to their Gonzales Road home.

Archdeacon H. P. Westgate and Mrs. Westgate, with their daughter, Miss Margaret Westgate, are visitors from Windsor, Ont., the guests of Archdeacon Westgate's brother and sister-in-law, Mr. and Mrs. R. J. Westgate, 1632 Hollywood Crescent.

Cmdr. and Mrs. S. A. Clemens entertained informally at their Joan Crescent home prior to the reception and dance aboard H.M.S. Kenya, Thursday evening. Their guests were Lt. Cmdr. and Mrs. O'Brien, Surgeon-Cmdr. and Mrs. R. Ruttan, Lieut. and Mrs. A. B. Rines, Commander and Mrs. Bruce Bruce Gorie and Mr. and Mrs. Gar Dixon.

David Clouston will be the names bestowed upon the five-month-old son of Mr. and Mrs. F. J. Child, 1026 Monterey Avenue, in a christening service to take place Saturday at St. Mary's Church, Oak Bay, with Rev. J. A. Springborn officiating. Godparents will be Mrs. K. Sedgeman, Mrs. F. Norris, Mr. Hew Paterson and Mr. Gordon Stacey.

Monsieur A. Antossy, newly appointed French Consul in British Columbia was host at dinner in the Empress Hotel Thursday evening. His guests were Mme. Sanderson-Mongin, Mme. Graeff, Mr. and Mrs. Jorje de St. Jorre, Mrs. A. F. Nation, Mr. and Mrs. H. D. Parizeau, Mme. Renee Archibald, Mme. V. Griffithon and Miss Dorothy Panderson, head of the French Camp at Shawinigan Lake with a party.

Mr. and Mrs. H. D. Parizeau entertained Wednesday evening with an informal reception at their Richmond Avenue home. In honor of the newly appointed consul for France in British Columbia, Monsieur A. Antossy. Among the 30 guests were members of the Children of France Society and Mme. Renee Archibald, president of L'Alliance Francaise. M. Antossy addressed the gathering on present conditions in France.

Miss Eileen Richards, whose marriage to Rev. H. Greenhalgh takes place Saturday afternoon, was honored Thursday evening when past presidents and members of the executive of the Victoria Business and Professional Women's Club entertained with a buffet supper at the Gordon Head home of Mrs. Madge Hall. During the evening, Miss Minnie Beveridge presented to the honor guests a Pat Sall glass tray and tumblers, hand engraved in dogwood design. Corsage bouquets were also presented to Miss Richards, her mother, Mrs. J. F. B. Richards and her aunt, Mrs. Lillian Warren, Niagara Falls, N.Y. Covers were laid for 20 guests.

In honor of Miss Ruth Burdge, whose marriage will take place shortly, Miss Margaret Morry entertained members of the office staff of Scott and Peden Ltd., at her home on Stanley Avenue, Wednesday evening. The guest of honor was presented with a corsage bouquet of red roses, while her mother and the mother of the groom-elect received corsage bouquets of carnations. Miscellaneous gifts were arranged in a pot of gold at the end of a rainbow. During the evening contests were held, winners being Misses Ruth Burdge and Dorothy Stout. Other guests were Mesdames F. W. Burdge, C. Biggs, A. G. Morry, H. McKenzie, R. Bentley, J. D. McKenzie, Toronto, Misses Doris Hunt, Myrna Haggart, Roseline Marks, Dorothy Stout, Joyce Wallace, Helen Talbot, Patricia Roseboom, Florence Gordon, Margaret Temple, Violet Curtis, Ruth Turner and Mary Craig.

A meeting of the Canadian Youth Hostel will be held next Wednesday at 8 in the Y.W.C.A. Anyone interested in cycling may attend.

## Minister Of Veterans' Affairs To Wed

Wedding of Rt. Hon. Ian Mackenzie, minister of veteran affairs, to Helen McRae of Winnipeg, is to take place soon. Couple shown here on left with minister's sister, Jean, right. Engagement was announced during Mr. Mackenzie's visit to Winnipeg.

## Reception And Dance Aboard H.M.S. Kenya For 200 Guests

H.M.S. Kenya, visiting British society circles had the opportunity to dance aboard a British cruiser and the occasion was marked by a return to formal attire, dark blue of naval mess jackets, white tie and tails of civilians, making a perfect background for the striking summer evening gowns worn by their ladies.

Colored lights outlined the main deck and red and white bunting decorated the lantern-lit quarterdeck, where the guests danced. Masses of summer flowers were arranged to form a setting for the orchestra composed of Royal Marines.

Under the big guns of the main turret, silent now and shining with fresh grey paint, chairs were arranged for "sitting out." Refreshments were served in the captain's cabin, the officers' wardroom and in the gun turret on "Y" deck.

Not in nearly 10 years has Victoria's official, naval and

## Naval Wedding At St. Mary's

St. Mary's Church, Oak Bay, was the scene of a pretty wedding Thursday evening at 8, when Hilda Mary, only daughter of Mrs. Gordon Russell became the bride of Lieut. (S) Alexander David Manning, only son of Mrs. Ernest D. Manning of Winnipeg. Canon A. E. de L. Nunns performed the ceremony.

The dark-haired bride, given in marriage by her brother Murray, wore a gown of white brocade satin, featuring sweetheart neckline, lily point sleeves, fitted bodice and bouffant skirt. A veil of illusion net was held in place with a coronet of Honiton lace and orange blossoms. She carried a prayer book showered with rosebuds and ribbon streamers. A single strand of pearls and a half-moon turquoise and pearl brooch were her only adornments.

Miss Nonie Carruthers and Miss Pamela Allen, the bridesmaids, were attired in blue and peach moire taffeta gowns respectively, and carried sprays of gladioli in pastel shades.

Lieut. William Hunt was best man while A. Satchell and Sub. Lt. K. Cameron acted as ushers. Coming out of the church the bride and groom passed under the crossed swords of a guard of honor formed by Lt. Cmdr. R. P. Willard, D.F.C., Lieut. R. V. Hayward, Lieut. (S) I. Maxwell, L. M. Evans, C. D. Eng., Lieut. (S) G. S. Geddes, Lieut. (S) C. C. Treherne, Lieut. C. G. Pratt, Lieut. (S) J. Sutherland, all officers in the R.C.N.

Following the ceremony a reception was held at the home of the bride's mother, where the traditional toast to her happiness was proposed by J. N. Anderson.

For a honeymoon near Jasper, the bride donned a top coat of delf blue over a bluish pink silk jersey dress with navy accessories.

On their return, Lieut. and Mrs. Manning will make their home in Victoria.

Community Club—The August meeting of the Esquimalt Community Club was held and plans were completed for the annual picnic on Aug. 10 at 1 at Willows Park. Bingo will be played at the club hall, behind Joresby House, on Friday, at 8. A report of 26 sick visits for July was given. The weekly 500 parties will commence the fall season on Sept. 2. Next meeting of the club will be held on Sept. 8, in place of Sept. 1, Labor Day.

A no-hostess kitchen shower in honor of Miss Jennie Robbins, whose marriage takes place this Saturday, was given by fellow employees of the Veterans' Hospital, at the home of Mrs. E. W. Merriman, Fernwood Road, Tuesday evening. The honor guest was presented with a corsage bouquet of pink rosebuds and violets. A mauve and yellow decorated box held the concealed gifts

and a matching color scheme of flowers centred the refreshment table. The invited guests were Mrs. Norah Bellman, Mrs. Nora DeCosta, Mrs. Florence Moore, Misses Helen Ree, Joyce Stacey, May Merriman, Phyllis Little, Betty Kyle, Dorothy King, Joan Griffiths, Kit Carson, Gerry Williamson, Helen Moffat, Pat Hall, Mary Reeves and Joy Reid.

## Social Situations

The situation: You are invited to a shower for a bride-to-be, and on the day of the party you are ill and cannot attend.

Wrong way: Feel that since you are not going to the party you need not send a gift.

Right way: When you tell your hostess you will be unable to attend the shower tell her you are sending your gift. If you have no way to send it, ask if she or another guest can pick it up.

## Dorothy Dix

Dear Miss Dix: What is a poor wife and mother to do when she has been home all day alone, except for the children, and who feels the need of some companionship, yet whose husband re-

tires behind his newspaper for the evening and passes into silence? **BORED WIFE.**

Answer: Just as you can't get blood out of a turnip, so you can't get scintillating conversation out of a dummy. So all that a wife who has gotten a non-talker for a husband can do is to adjust herself to circumstances. She can provide herself with plenty of company if she will ask her friends in for a game of cards and serve them a tasty snack. Or she can put on her good clothes and step out with Sally or Mamie and tell husband that she is leaving him to take care of the baby, as he is going to be a fireside-sitter, anyway.

Any woman who has any management about her can find some time during the day to get out of her home for a little while and get a change of scene and something new to think about

## Native Daughters Garden Fete

Mrs. J. A. Lorimer, Mrs. J. W. King and Mrs. A. Davies, left to right, members of the committee in charge of arrangements for the garden party planned by the Native Daughters of B.C., Post No. 3, in the beautiful grounds at the home of Mrs. Gordon Hepburn, 1069 Beach Drive, Saturday afternoon, commencing at 3 o'clock. Afternoon tea will be served and there will be many other attractions.

## McLaren-Hourston Vows At First United Church

Rev. Dr. W. G. Wilson officiated when nuptial vows were exchanged by Miss Alma Joyce Hourston, daughter of Mr. and Mrs. A. J. Hourston, 1530 Vining Street, and Joseph T. McLaren, son of Mr. and Mrs. Thomas McLaren of Winnipeg, Thursday evening at 8, at First United Church. Baskets of Shasta daisies

and masses of pink and mauve flowers decorated the church. Organist J. Ingram Smith played wedding music and Misses Norma Shaw and Mary Cowley were soloists.

Given in marriage by her father, the bride chose a white satin gown, slightly en train, featuring a bustle effect, sweetheart neckline and long lily point sleeves. A sweetheart headdress of veiling held her illusion silk embroidered veil. To complete her ensemble she carried a bouquet of red roses and white carnations. Double strands of pearls with matching pearl earrings, gift of the groom, were her only jewelry.

In the role as maid of honor, Miss Eleanor Hourston, sister of the bride, wore a floral taffeta gown. Miss Madge Denman and Miss Joyce Andrews, the bridesmaids, chose similar gowns in pink and blue, respectively. All attendants wore braided bandeaux with flowers over the ears to match their gowns.

The groom chose as best man Thomas McLaren, and John Pendray and Jim Southall as ushers.

Following the ceremony mothers of the young bridal couple received guests at Kit Kat Banquet Club. A three-tiered wedding cake topped with rosebuds centred the refreshment table. E. W. White, proposed the bride's toast.

For her honeymoon trip to Jasper, the bride wore a grey-blue gabardine suit, with red shoes and purse, navy blue hat and corsage bouquet of blue flowers.

Mr. and Mrs. McLaren will make their home in Winnipeg.

## Spurns Scissors To Drape Styles

MELBOURNE (CP)—Australian dress-designer Margaret Murdoch is showing cleverly-designed gowns of poetic line and color in her autumn collection of "occasion" models at a store here.

Many ensembles in the collection are designed for air travel and for late afternoon wear, and there are some particularly interesting evening gowns.

Miss Murdoch excels in draping, an art she learned in Paris. Without the use of scissors or tape measure, she has created gowns to flatter both the jeune fille and the more mature woman. Her designs are especially suitable for the fine woollens and heavier wool fabrics for which Australia is noted.

In several of the evening styles, Miss Murdoch's gowns ap-

pear to be taken from the pages of a history book, although there is nothing unsuitable for the times.

Intricate drapery of the sleeves both long and short, and bodices and skirts wrapped to the figure, are outstanding fashion points in her woollen afternoon frocks.

Miss Murdoch's basic wardrobe for air travel was of dual personality and purpose. The great-coat of aqua blue Australian tweed has a broad geometric-tucked shoulder treatment, and a broad brown kid belt. The coat could be removed to reveal a slim-fitting frock of blue and brown phantom chevron fabric, covered by a new and intricately draped hip-length jacket.

Fresh Peach Roll—2 cups sifted flour, 3 teaspoons baking powder, 1/2 teaspoon salt, 1/4 cup shortening, 1/4 cup milk, 6 ripe peaches, 1/2 cup sugar, 1 1/2 tablespoons lemon juice. Mix and sift dry ingredients, work in shortening and add milk, stirring until

a soft dough is formed. Turn out on lightly floured board and knead just enough to shape into smooth ball. Roll to 1/2-inch thickness. Pare and slice peaches, place on dough and sprinkle with sugar and lemon juice. Roll as

for jelly roll, place seam down on greased baking sheet and brush with butter. Bake in hot oven 400 degrees F. for 25 to 30 minutes. Serve with whipped cream.

### 'Not For East Indies' Marked On Dutch Loan

WASHINGTON (AP)—The world bank handed The Netherlands government a \$195,000,000 loan Thursday but specified none of the money can be spent in the strife-torn Netherlands East Indies.

The bank said the credit will be used exclusively to reconstruct productive facilities in The Netherlands homeland.

"None of the proceeds will be applied to The Netherlands' East Indies nor for military purposes," an announcement said.

Repayment of principal begins in 1952 at a "modest rate."

The bank is expected to grant two additional loan requests next week — \$50,000,000 to Denmark and from \$10,000,000 to \$15,000,000 to the Luxembourg government.

The Netherlands originally sought \$335,000,000 for a three-year rehabilitation program.

### Cubs Leave For Camp At Sooke

Pictured on the front steps of the Victoria and District Boy Scout Association headquarters at 1034 Johnson Street are some of the 130 cubs, leaders and scouting officials who left Thursday morning to attend the summer camp at Camp Barnard, Sooke. They were conveyed to the camping grounds in private cars. During their camping period the youngsters will enjoy many phases of cub training, including hikes, swimming and campfire sessions.

### Trade Of Both Countries To Benefit Says Pro-Confederation Newfoundlander

This story, second of a series, deals with possible effect on trade should Newfoundland decide to enter confederation.

By D'ARCY O'DONNELL

OTTAWA (CP)—Entry of Newfoundland into Canadian confederation would benefit the trade of both countries, says Joseph Smallwood, pro-Confederation member of the seven-man delegation here to discuss terms of possible union.

In an interview, Mr. Smallwood said one immediate ad-

vantage would be elimination of tariffs on goods Canada sends to the island if the people of Newfoundland decide at a proposed referendum to enter Canada as a 10th province.

Elimination of the tariffs would place additional purchasing power in the hands of the Newfoundland people and bring increased demand for goods, he continued, and greater employment in both countries would result.

Mr. Smallwood, only member elected to the Newfoundland National Convention on a confederation platform, said wealthy merchant in St. John's were opposed to union because they feared unaccustomed competition from chain stores which might move in from Canada.

They feared as well Canada's high income tax rates.

Although the bulk of imports now came from Canada, Newfoundland naturally sought the cheapest market. In the event of union she would probably import everything from the other provinces except in cases where an article could be obtained cheaper elsewhere even after payment of Canadian customs duties.

The imports would include food, clothing, footwear, hardware, coal, building materials, machinery, railway rolling-stock and equipment, fishermen's equipment, marine engines and farm equipment.

While Newfoundland's sales to Canada likely would not increase materially, Mr. Smallwood expressed belief that the island would benefit in other ways. For instance, the island now has little or no bargaining power in world trade. As a province it could take advantage of Canada's consular and trade services. It could share in benefits from Canada's trade agreements with other countries.

Elimination of tariffs, now the island's main source of government revenue, would lower the cost of living and the cost of production.

A commission of government, made up of four United Kingdom and three Newfoundland representatives, has been administering the island since 1934. The 45-man convention was elected last summer to recommend future forms of government for Newfoundland, which got financially back on her feet during the war years. The people will decide on the future form of government in a referendum, possibly next May.

### Says Air Travel Good This Year

EDMONTON (CP)—Grant McConachie of Montreal, president of Canadian Pacific Air Lines Ltd., in an interview Thursday said air travel is holding up well on a general scale, though it is light between Whitehorse and Fairbanks, Alaska.

Mr. McConachie here on a northern inspection trip said a decision was awaited from the Air Transport Board on the company's application to operate a service between Calgary and Vancouver by way of the Okanagan Valley.

### Garden Prizes Given For Wartime Houses

K. Barker, 525 Paradise Street, won three of the prizes offered by Central Mortgage and Housing Corporation for the lawn and garden contest this year among residents of wartime houses.

Mr. Barker took the prize for the best development front and back, first prize in the vegetable winners and second prize in the lawn and flowers winners.

W. Carpenter, 901 Dunsmuir Street, was first in the lawn and flowers class, and E. A. Sharpe, 27 Pilot Street, was third.

In the vegetable class, Mrs. G. E. Smith, 55 Dock Street, placed second, and Mr. Sharpe, third.

A special prize was given M. Phil, 2626 Prior Street, for the best development of a new garden.

### Rival Leaders In Indies

Rival leaders in the fighting between Dutch troops and the 200,000-man Indonesian army are Dr. Hubertus J. Van Mook (left), acting Governor-General of the Netherlands Indies, and Sutan Sjahrir (right), Premier of the Indonesian Republic.

### Huge Expansion Area Eyed By Vancouver

VANCOUVER (CP)—The Town Planning Commission Thursday revealed projected blueprints for a new "Greater Vancouver" layout extending some 80 miles east to Hope.

Covering approximately 1,800 square miles, the considered area for development and "decentralization" of Vancouver's estimated population increase will take in 23 municipalities and about half the present population of the province.

The commission report declared that to permit economic provision of public services and facilities, throughout its 44 square miles, Vancouver city should contain a population of about 15 persons per acre, or a total of 445,000.

## FOR SALE NEW COMMUNICATIONS RECEIVERS

Subject to prior sale or withdrawal, War Assets Corporation has available for sale:

### RECEPTION SETS—CANADIAN VRL

These are 19 tube superheterodyne receivers designed for operation in a vehicle or as a fixed station and have a wide frequency coverage of 1.4 to 28 Megacycles (214 to 11 metres) in four bands. Power supply will allow operation on 110 volts A.C. or on a 12-24 volt D.C. system.

They are ideal for the radio amateur or as a listening set for the short-wave enthusiast.

These sets have never been used and are absolutely new. Intermediate frequency: 455 KC; Sensitivity: 3 microvolts for 50 microwatts output from 1.4 to 13 Mcs. 5 microvolts for 50 microwatts output from 13 to 28 megacycles; Weight: 90 lbs. Dimensions: Length 20 inches, height 21 inches, depth 15 inches.

**NOTE THESE FEATURES:** Fast and slow AVC. Noise Silencer. Built-in Loudspeaker. Built-in Crystal Calibrator. Shock mounted. 5 Positions Selectivity.

### TERMS AND CONDITIONS

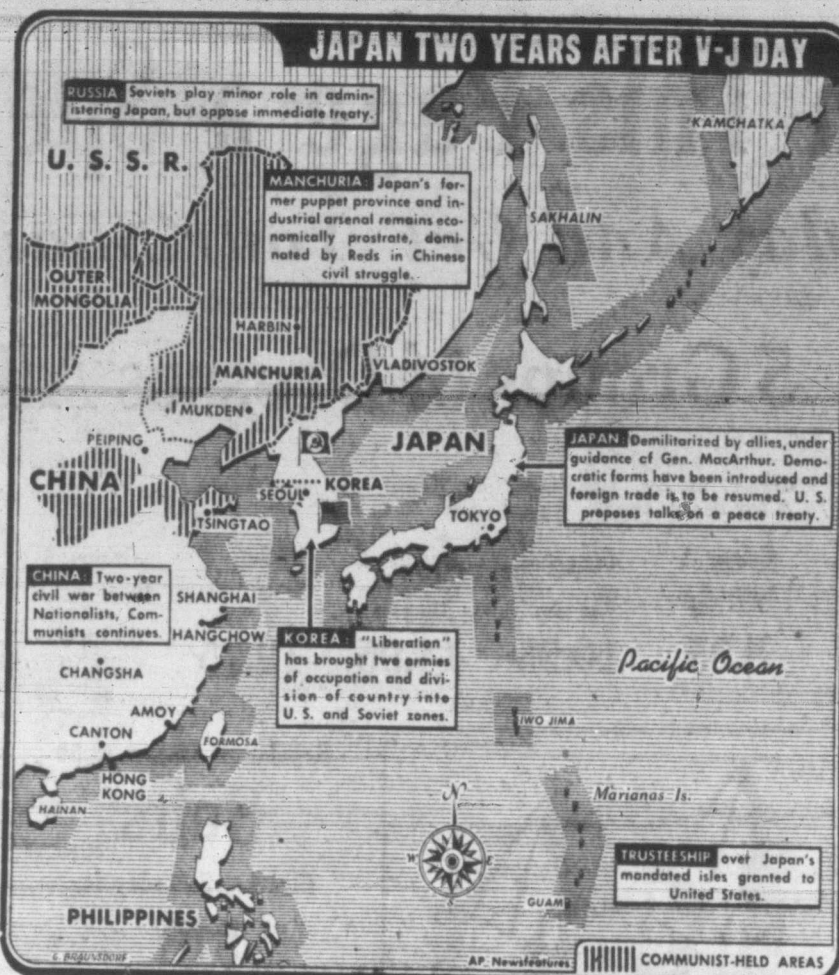

Offers to purchase merchandise are invited subject to the following conditions:

- The Corporation shall have the right to accept or to reject any or all offers in whole or in part.
- If an offer is accepted, sale will be on an "as is-where is" basis, without warranty of any kind (except as to the Crown's title), and will be subject to the other usual Sales Conditions of the Corporation.
- On acceptance of offer, purchase price will be payable in full.
- Purchasers will be required to take delivery of merchandise sold and to remove it from the premises at their own expense within a time limit set by the Corporation.

### TIME

Offers forwarded so as to reach the address noted below on or before the 15th day of August, 1947, will be considered, unless an offer satisfactory to the Corporation has been received and accepted prior to that date.

Offers should be addressed to the Branch Sales Manager, War Assets Corporation, 1108 West Georgia Street, Vancouver, B.C.

By ROBERT N. COOL

On Aug. 14, 1945, Japanese Emperor Hirohito broadcast his surrender rescript. It was eight days after U.S. fliers had dropped the first atomic bomb upon Hiroshima, six days after the Soviet Union had declared war on the "Germany of the Far East."

The two years since V-J Day have brought a form of peace to war-making Japan — the supine acceptance of utter defeat by a population accustomed to taking orders. But across East Asia, where Japan had been extending its conquests for a dozen years before it was brought up short, victory has meant new forms of conflict.

China, chief victim of Japanese aggression, remains locked in her civil war between the Communists of the north and Chiang Kai-shek's Nationalist government. Though the country has been bled white, despite vast stocks of food and arms supplied chiefly to the Nationalists by the United States, a decision in the war still is seen as remote. Neither the rebels nor the Chiang regime have been able to win a decision, and neither apparently will give in.

### RECONSTRUCTION

In contrast, Japan's 73,000,000 inhabitants have spent the post-war years in reconstruction. Gen. Douglas MacArthur, administering the defeated nation for the United States without relying very much on help from the other members of the Allied con-

trol council, has carried disarmament to the point where he could recently say that the Japanese would be incapable of fighting a war for a hundred years. Democratic forms have been prescribed, though some observers question how completely they are grasped. On the surface, anyway, the zaibatsu-ruling industrial dynasties have been broken up, while labor unions now claim some 5,000,000 members.

U.S. food has been shipped in. Korea, seized by Japan in 1905 and liberated two years ago, is now a smouldering battleground of intrigue — split into United States and Russian zones. Though talks have been in progress designed to rehabilitate the country as the Allies promised, international tensions between Western Democracy and Soviet Communism threaten Korea with civil war if the rival occupiers should leave. Similarly Manchuria, long a Japanese province, finds itself stripped and prostrate as a result of war, Russian occupation and the subsequent struggle between the Chinese left and right factions.

Both Korea and Manchuria were productive industrial and farming centres under Tokyo's exploitation.

### RESUMES TRADING

In contrast, Japan now is scheduled to resume trade relations with the world by the middle of August. China and the Philippines have expressed concern over the prospect of trading so soon with their recent invaders.

Looking ahead in August 1945, defeated Japanese might have foreseen that the conclusion of a peace treaty would be started on its way two years after their surrender.

Russia rejected a United States bid for preliminary talks on the treaty when 11 nations were invited to meet at Washington Aug. 19. This date was later described as tentative.

Diplomats believe a year may

be required to arrange a formal peace. Wartime agreements stripped Japan of its empire, but the status of Korea, Formosa, Manchuria, the Kuriles and Sakhalin must be formalized. Reparations and the extent of future industrialization will be taken up, also the problem of future Allied control and Japan's exact status among nations. Gen. MacArthur has said that some control should be exerted for "a generation."

### IDEOLOGICAL STRUGGLE

Added to the suspicions of Japan's Asiatic neighbors, and their fear of her possible future strength, is the larger issue of Soviet interests. Japan may become a new pawn in the ideological struggle between Russia and the United States.

Such a development has already been foreshadowed by Soviet rejection of the peace talk invitation.

Moscow said the Four Power Foreign Ministers' council should take up the peace task. This body dates from the Potsdam Conference which took place before Russia was in the eastern war, and the United States government seems to prefer an 11-nation approach, which would weaken Soviet power in the negotiations.

## Citizens Fail To Appreciate Assets Mayor Tells Club

"I fear we are too smug and complacent about our natural assets," Mayor Percy E. George, recently returned from a convention of the Federation of Mayors held in Winnipeg, told fellow members of the Victoria Rotary Club Thursday.

Mayor George said he had taken time to investigate other cities on his way back from the convention, and had found "we have a great deal for which to be thankful."

"It seems to me, however, that we do not fully appreciate the beauty of our God-given surroundings," he continued. "That goes for everyone on the coast but in particular for the people of southern Vancouver Island."

Mayor George spoke in reply to an address by Mayor Ernest Mallory of Olympia, Wash., president of the Olympia Rotary Club, who brought greetings from his city and his club to the Victoria Rotarians.

The main address of the day was a classification talk by Rotarian Philip Fleming, managing director of Felt and Textiles of Canada Ltd., which has taken over the Montreal Street woolen mill with the intention of producing wool rugs.

Mr. Fleming said the firm was having difficulty in finding necessary machinery but was hoping to commence production sometime in the spring of 1948.

LYDNEY, Gloucestershire — A bull killed 25-year-old Arnold Brown and injured his father.

**YOU'D BE  
Surprised!**

If you've never smoked a burley tobacco, you'd be surprised how it keeps your tongue cool, packs so easily, burns smoothly, and stays lit with a minimum of light-ups. You can smoke it all day long, and still come up for more.

Picobac is the pick of the Burley crop, grown in sunny southern Ontario, where climate and soil are the secret ingredients for a mild, cool, satisfying smoke.

GET SOME TODAY!

"Carelessness can cause fires. Be careful."

## Telephone Exchanges Throttled by "General Shortages"

Interferes with Quality of Service

Our telephone exchanges are short of equipment. There isn't enough machinery for the dial exchanges and not enough switchboard for the exchanges served by operators. And we can't get deliveries of equipment fast enough.

But we have thousands of people waiting for telephone service and so we are connecting more and more telephone lines to the equipment which we have. This seems the fairest thing to do.

It means that our switchboards and our dial machinery are overloaded. They are being worked beyond their normal capacity.

Because telephone operators and automatic switches are often called upon to cope with more calls than they normally should, the quality of the service is naturally affected.

We can't spread the lines out among more dial machinery or switchboards because we can't get this equipment fast enough from the factories, which are deluged with orders.

In the case of exchanges having switchboards, our operators have, on the average, less experience than formerly and therefore they cannot handle calls as rapidly. We cannot add more operators to compensate for this as we can't get the switchboard to accommodate them.

But we are doing our utmost to cope with these problems and our five-year plan of improvement and expansion is under way.

## Dodgers Return Home Hoping To End Slide

Brooklyn's weary Dodgers, their 10-game National League lead sliced to four by a series of disasters in Chicago and Boston, staggered home today, banking on a .700 winning record at Ebbets Field to halt their toboggan slide.

The question of the day in Flatbush is "what's the matter with the Dodgers?" It may be a letdown after the end of the 13-game victory streak or it may be a general deterioration. Once again Pete Reiser, troubled by headaches, is out of the line-up and the club is missing his batting punch. And the Cards again are putting on the pressure.

While the Dodgers have been losing six of their last seven since sweeping three at St. Louis, the world champions have racked up seven straight triumphs, to cut six full games off the Dodger lead.

Red Barrett tripped the Dodgers yesterday, throwing a three-hitter and doubling to start Boston's winning rally in a 3 to 1 triumph.

New York Giants whipped the injury-riddled Phillies for a third straight 5 to 2 victory. Oscar Judd of Ingersoll, Ont., and Al Jurisich yielded only four hits but a pair of wild pitches and an error by Jim Tabor made hits unnecessary.

**SLAUGHTER STARS**  
Enos Slaughter led the blazing Cardinals with a pair of singles and a triple, driving in three runs in the 9 to 2 romp over Cincinnati's Kent Peterson.

The Reds lost more than the ball game because their ace rookie outfielder, Frank Baumholtz, suffered a slight concussion in a collision with shortstop Eddie Miller while chasing a Texas Leaguer. Miller received a cut chin.

Kirby Higbe hurled a seven-hit 3 to 0 shutout for Pittsburgh against Chicago. Ralph Kiner's 27th homer in the second inning started Hank Borowy on the way to his ninth loss.

Boston Red Sox, who open a last-ditch stand tonight against New York Yankees whom they trail by 13½ games, warmed up with a 12 to 2 slaughter of Washington. The Sox lambasted Early Wynn, Marino Pieretti and Scott Cary for 15 hits including Ted Williams' 25th homer.

## Invite British Naval Men To Shoot

Officers and men of H.M.S. Kenya are extended an invitation by officials of the Victoria Gun Club to attend the club's trophy shoot to be held at the Albert Head Road grounds Sunday afternoon, starting at 1.

The invitation comes from the club in view of a number of inquiries being made as to where the visiting naval men could enjoy some scattergun sport. Trophies to be shot for by club members are the Colonist Cup and C.I.L. Shield.

## 'Y' Tracksters Seek Provincial Honors At Mainland Meet

Victoria's Flying "Y" track and field athletes will wind up their season tomorrow by taking part in the B.C. title meet at Brockton Point, Vancouver. With performances being closely watched with regard to possible Olympic selection the local squad will be out to add to its already long list of laurels.

Cliff Salmond, Canadian mile champion and winner of the 880 and the mile at the Scottish Games will with captain Harry Mitchell top the local men's entry list.

Mitchell, beaten by a whisker in the 100 and 200-yard events in the Dominion championships, feels confident that he can reverse these decisions over the Olympic metric distances.

Elaine Silburn, Dominion broad jump champion, and Pat Fleming, Canadian senior high jump titleholder, will head the feminine contingent.

Joe Isherwood, who won the 440-yard event at the Scottish Games, will enter the 400 metres along with Harvie Cocks. Ken Troup and Jim Mill will represent the club in the 800 metres. Don McNeill and Rafael Duke, University School students, will run the sprints. Don Wilson will be seeking pole vaulting and high jump honors.

## Benefit Softball Tilt Tomorrow Night

Tomorrow night at Central Park, starting at 6.30, Esquimalt Meat Market and Douglas Tire senior A men's softball teams will play a benefit game for Barney Barnswell.

Barnswell, a member of the Douglas Tire club, injured his leg during a game several weeks ago. Esquimalt finished in first place in the league and will meet the winner of the playoff between Brentwood Aces and Army, Navy and Air Force Vets in the final.

## LANGFORD SOFTBALL

Langford midget softball nine will meet View Royal at Langford tonight at 6.30 in the first game of the Colwood and District League final.

## Ben Hogan Bests Par And 'Flu To Share Golf Lead

SPOKANE, Wash. (AP)—Tree-lined fairways, tricky greens and influenza staged a three-way attack on little Ben Hogan of Hershey, Pa., and he beat them all Thursday, carding a five under par 64 to tie with Herman Kelsier of Akron, Ohio, for the first-day lead in the \$10,000 Esmeralda open golf tournament.

Indian Canyon's par had been cut two strokes and its first and last holes lengthened, but the invading professionals had no respect for its record as a dangerous tournament course.

Vancouver's long-driving Stan Leonard took a 74 and two other British Columbia entries, Ray Stone of Trill and Harry Donaldson of Rossland, each carded 78's.

Hogan carried a bottle of gargling medicine and doctored himself between almost every shot, trying to lose a case of influenza that had him feeling groggy.

Western amateur champion Bud Ward was scrambling most of the way and turned in a 72, leaving his fellow townsman, Ken Storey, as leading amateur with 69.

## Navy Week Ends Saturday

Navy Week will end Saturday with a sunset ceremony to be held alongside H.M.S. Kenya, Royal Navy cruiser, which is berthed at Naden. The bands of both H.M.S. Kenya and H.M.C.S. Naden will take part in the colorful ceremony which will begin at 5.30.

Thousands of visitors are expected to visit the Naden shore establishment as well as Canadian and British warships opened to the public for inspection throughout the day. Attendees will be on hand to help visitors park their cars, while others will be on duty for the safety of children.

As on Wednesday, torpedoes

will be fired from the projectors of H.M.C.S. Ontario. Gun will be fired and recovered while depth charges (without exploder) will be fired from the ship's gun.

Today a track and field meet, featuring 18 events, was held on the sports ground of H.M.C.S. Naden. Contestants from all warships, including shore establishments took part in the races.

Highlights of the track meet were a tug-of-war between Canadian and British seamen, and a one-mile race for the Patton Trophy.

A dance, sponsored by the Navy League, is being held tonight for R.N. and R.C.N. seamen at the Prince Robert House.

them brought into line with the federal cost-of-living indices.

In order to achieve the five-day week, the civil servants have offered to work longer hours, which will mean increasing their actual work week from 37½ hours to 38½ hours.

## B.C. Employees Seek Conference For Next Week

Officials of the Provincial Government Employees' Association are now awaiting word from Premier John Hart's office notifying them of the date for a conference with the Premier and Provincial Secretary George S. Pearson on the employees' request for increased cost-of-living bonuses and the five-day week.

Officials said they hoped the date would be set for sometime next week, prior to the association's executive meeting Aug. 18, but added there was no indication as yet the date would be set for next week.

Briefs are now prepared for presentation. Increased cost-of-living bonuses were first sought one year ago. Bonuses now reach a maximum of \$26.11 and the association is seeking to have

## Want Men To Keep Area Beaches Clean

Employment of men to patrol the beaches in and about Victoria and keep them cleaned of garbage and other debris was recommended by the Victoria-Esquamalt Health Board today, Councillor A. C. Wurtele, acting chairman, said following a meeting today.

The health committee is concerned about the possible menace of garbage collecting on the beaches to the health of those using them for recreation purposes.

The Victoria-Saanich Beaches and Parks committee will be asked to detail men to patrol the beaches regularly and see they are kept clean and sanitary.

## Chinese Complain Of Not Receiving Equal Treatment

Complaints that Chinese were not receiving equal treatment as Europeans in Canada, have been received by Dr. Tien-fong Cheng, former member of China's National Defence Supreme Council and vice-chancellor of the Central Institute of Political Sciences, who is visiting Victoria before returning to China.

"I've received complaints of discrimination with regard to the treatment of Chinese and Europeans," stated Dr. Cheng, "but I don't think there is as much cause for complaint as before the war. Treatment of Chinese nationals seems to have improved."

Dr. Cheng warned that an economic recession in Europe would deal a serious blow to Canada's export trade.

"If European countries have no money to buy your goods," he said, "Canadian industries are sure to suffer."

China was in great need of financial aid and at the moment was wallowing in economic chaos, he said. This was due to the war with Japan which started in 1931 and the present conflict with Chinese Communists.

"If China is able to stabilize its currency trade will boom between your country and mine," he said. "For the present we are unable to buy goods from Canada because we haven't got the money."

## B.C. Tree Fruits Move In Volume

Early pears, peaches and cantaloupe are moving in volume from the Okanagan Valley of British Columbia and the picking of Bartlett pears has begun, the weekly crop report of the Canadian National and Canadian Pacific Railways said today.

Apricots are practically finished and reached their estimated quotas, the reports said. Most berry crops in the Kootenay districts are over, and currants and early apples are being shipped from there. In the lower mainland district a heavy plum crop is expected and is already moving to the markets.

## 111 Polio Cases

A case of poliomyelitis reported at White Rock today brings the provincial total of polio cases since the beginning of the year to 111. Today's case is the second for White Rock.

The Vancouver total remains at 84 and that for Vancouver Island at nine.

## 6-Man Commission To Investigate School Taxation Problems In B.C.

The provincial cabinet today announced the setting up of a six-man commission to inquire into school taxation in the province, with four items in the terms of reference.

H. Allen Maclean, assistant deputy attorney-general, is chairman of the commission. Other members are B. C. Bracewell, deputy minister of municipal affairs; J. T. Clark, surveyor of taxes; R. F. F. Sewell, secretary of the Union of B.C. Municipalities; R. C. Grant, department of Education; and J. A. Stewart, provincial assessor and collector at Nelson. L. F. Detwiler of the department of finance has been made secretary to the commission.

Dr. G. M. Weir, Minister of Education, foresaw the possibility of further amendments to the Public Schools Act as the result of recommendations which may be made by the commission. "The commission will inquire into taxation incidence, not only

in rural areas, but in areas where the problem is still not satisfactorily solved," the minister said.

The commission has been instructed by the government to inquire into the following:

1. Performance of the assessment function for school taxation purposes within the province, and particularly in unorganized and organized areas of large municipal school districts.

2. Degree to which land and improvements are being assessed in accordance with the definitions in the Public Schools Act for school tax purposes in unorganized and organized areas of certain large municipal school districts.

3. Applicability and suitability of the definitions of "land" and "improvements" in the Municipal Act, the Village Municipalities Act, the Public Schools Act and the Taxation Act, for assessment purposes.

4. General incidence of taxation under the Schools Act.

## British Warship To Observe Old Navy Tradition

An old British navy tradition will be re-enacted, aboard the British cruiser Kenya Saturday afternoon when ship officers welcome a foreign potentate at a colorful ceremony to be held at 3.30.

The Emir Beegondek (B. Gun-Deck), dressed in ceremonial robes, will be welcomed aboard the warship—an old tradition dating back to early days when British warships used to call at Indian ports.

Visitors will be permitted to witness the ceremony. The ceremony has never been carried out on a Canadian warship.

## Find Stolen Radio

George M. Gerow pleaded guilty in city police court today to a charge of retaining a mantel radio, knowing it to have been stolen, and was fined \$50 by A. I. Thomas and J. R. Saunders, two J.P.s presiding in the absence of Magistrate H. C. Hall.

Constable Norman Galbraith said the radio was the property of Edwin Hornsby, 27 Boyd Street. The owner on returning home last evening at 11 found it missing from his apartment. Sgt. Tom Banister and Constable Napoleon Bouchard and Galbraith 20 minutes after this report was received at the station attended at room 107 Station Hotel and arrested accused for having the radio.

Members of the Sketch Club of the Island Arts and Crafts Society will sketch at Wilkinson and Glyn Road Monday, meeting at the Coach Lines depot at 1 to take the Burnside bus.

## Overnights At Hastings

VANCOUVER (CP)—Hastings Park entries (Goodwood Park meet) fourth day, Saturday, Aug. 9.

Pal o' Cine (Robertson) 113  
Sir Greenview (Neal) 113  
Sonny Rock (No Boy) 110  
Dalmahoy (Bovine) 113

Fourth race—Claiming \$800,

## Heads Committee

Dr. J. L. Murray Anderson, medical health officer, has been named chairman of a special committee of eight city doctors set up to advise on measures for the control and treatment of poliomyelitis, it was announced by Councillor A. C. Wurtele, acting chairman of the Victoria-Esquamalt Health Board, today.

There are only two cases of polio in the Victoria area, one an adult and one a child. Both are progressing satisfactorily. Dr. Anderson said. A resident of Cowichan, who works in Duncan, is also hospitalized in Victoria suffering from polio and he is seriously ill.

George H. Thompson pleaded guilty in city police court this morning to a charge of dangerous driving on Gorge Road Aug. 3, was fined \$35 and had his driver's license suspended for one month by J. R. Saunders, J.P. His car was badly damaged in an accident.

## Saanich Asks D.V.A. For Funds Toward Shelbourne Fire Hall

Saanich municipality has asked the Department of Veterans' Affairs if it would be prepared to make any financial contribution toward the erection of a fire hall on Shelbourne Street in the vicinity of Cedar Hill Cross Road.

In the letter, John Tribe, municipal clerk, stressed that a fire hall in this locality would be able to give quick service in a direct route by way of Shelbourne Street in the case of a fire occurring at the Veterans' Hospital on Richmond Road.

A few days ago Saanich asked the city to put in a hydrant near the hospital, which would be rented by Saanich from the city to serve the hospital in case of fire.

The D.V.A., several weeks ago, queried the city whether it would be possible to obtain fire protection from the City Fire Department for the hospital, and what fees would be charged. The City Council, before making an answer, asked Saanich what it proposed to do to give the hospital protection.

## Gladiolus Society Opens Exhibition

Gladioli of every hue and color are included in the first annual exhibition of the Victoria Gladiolus Society which opened at 2 this afternoon in the Church Hall of St. Andrew's Presbyterian Church, Broughton Street.

While exhibits are mostly from local growers, entries have been received from many outside points. Some blooms were flown here from Winnipeg. Professional florists of the city have entered baskets of blooms for display purposes only.

F. C. Cave, Vancouver grower, is judge of the show. The exhibit will remain open until 9 this evening and will open Saturday from 9 a.m. to 9 p.m.

At the conclusion of the show, the flowers will be used to decorate the church and to brighten hospital rooms.

Russell and Nobel Moore, convicted at Vancouver, June 11, before Mr. Justice A. M. Manson, and sentenced to five years and four years, respectively on a charge of retaining stolen goods, have filed notice of appeal at the Courthouse here, M. A. van Rogen is counsel for the appellants.

## Town Topics

A building permit has been issued by the B.C. Electric Railway Company for excavations and rock blasting for the foundations of the garage on Garbally Road. Value of the permit is \$15,000.

William A. Ramsay, convicted at Vancouver before Magistrate M. Matheson on a charge of theft and sentenced Aug. 1 to 18 months, has filed notice of application for leave to appeal from sentence.

One hundred and forty-five pints of blood were netted for the Red Cross blood bank by Thursday's visit of the mobile clinic to Sidney and Patricia Bay air station. Civilian residents of Sidney donated 70 pints; R.C.A.F. personnel donated 75 pints.

Since war veterans' re-establishment credit started being issued to applications following the end of the war, \$136,179,256 worth has been granted. Fifty-five per cent of all credit payments have been approved for the purchase of furniture and household equipment.

A photographic contest for pictures of city or farm gardens, scenery, farm machinery, animals, or any phase of rural, private or community life, is being sponsored by the B.C. Electric. It is open to amateur photographers of the lower island and pictures must be taken on the island south of Duncan. There will be eight cash awards. Entries must be sent to Alex M. Hall, the company's agricultural consultant, at 1501 Douglas St. The contest will close at midnight, Aug. 31.

## See Little Rain For B.C. Forests

Generally cloudy weather is forecast for southern Vancouver Island and lower mainland areas, but little rain is predicted for the week-end as Forestry Service officials reported today on the provincial forest fire situation.

No new fires were reported in the Vancouver district but the Nelson district is still battling outbreaks, with 47 men fighting eight fires in that area.

In the Kamloops district, 17 men are employed to fight 11 fires which are still burning, while nine small fires are reported in the Prince George district.

## 40 U.K. Delegates Here Sept. 1 May Clarify Timber Cut

Clarification of Britain's plan to cut her lumber imports by \$10,000,000 is expected here following arrival of a delegation of 40 members of the United Kingdom's Timber Trades Federation, scheduled to reach Victoria Sept. 1.

Accompanying the party will be W. A. McAdam, B.C. agent-general in London, and R. D. Roe, Canadian timber trade commissioner in the United Kingdom.

Bryan Latham, immediate past-president of the federation, will head the party which will visit the Okanagan district Aug. 25 and Vancouver, Aug. 27, before coming here.

In the city, the British visitors will be guests at a Government House reception and a government banquet to be given prior to a tour of Vancouver Island sawmills, logging operations and experimental stations at Port Alberni, Qualicum, Cowichan Lake and Honeymoon Bay.

Returning to Vancouver, the party will leave the mainland city Sept. 8 for Prince Rupert, stopping at Prince George on the journey back to eastern Canada.

## This 'Prowler' Call Was A False Alarm

Two James Bay Government Street residents, returning home late last night, discovered their key to the house lost and employed a ladder against the side of the building to get in through a window. That is what city police officers, Constables Norman Bath, Ivor Grommers and Napoleon Bouchard found when they sped to the scene in answer to a call reporting "prowlers." Reports of prowlers about city residences are quite numerous the last few weeks and police attend every report.

## Bail Refused

Application for bail of \$4,000 pending the hearing of his appeal from conviction on a charge of attempted murder, was refused Gabriel Jeff Williams, 22-year-old Indian of Topley Landing on Babine Lake, today, by Chief Justice Gordon McG. Sloan.

Williams was found guilty by a jury May 29 at Prince Rupert and was sentenced to 4 years imprisonment by Mr. Justice J. O. Wilson.

## Bird To Inquire Into Jap Claims

VANCOUVER (CP)—Mr. Justice H. I. Bird of the B.C. Court of Appeal said here Thursday he would conduct an official inquiry into claims by Japanese-Canadians they suffered loss when evacuated from the province.

He said he expected to receive further information shortly from the State Department at Ottawa regarding the appointment of counsel and other officials to assist in the inquiry. Mr. Justice Bird said he would like to proceed with the investigation before the Court of Appeal resumes sittings in Victoria on Sept. 9.

## Continue Search For Bodies Of Drowned Anglers

R.C.A.F. boats were joined today by the B.C. Police boat in charge of "Skipper" E. Lockwood as dragging operations continued in Cole Bay, Saanich Inlet, for the bodies of H. A. "Mickey" White, 45, 3474 Quadra Street, and Carl Armstrong, 1022 Cloverdale Avenue, who were drowned under tragic circumstances Wednesday evening.

Provincial Police today praised the fine co-operation the Royal Canadian Air Force is giving in providing boats, personnel and dragging equipment for the search.

The two members of the Victoria-Saanich Inlet Anglers' Association were drowned after Armstrong, a non-swimmer, had fallen overboard and White jumped in to save him. Owing to the inability of a third occupant of the boat to manoeuvre the craft, Armstrong and White went under. The search for the bodies, started Wednesday night, continued all day yesterday and was resumed today.

The police now hold little hope of locating the bodies in such deep water. The circumstances in this case are similar to a middle '30's double drowning, when two men were lost in deep water in the Arm and their bodies were never recovered.

A search of the shoreline was being conducted today in the event the tides had carried the bodies to shore.

## Weary Firefighters Battle Big Blazes In Eastern Canada

HALIFAX (CP)—Shimmering heat and a pall of smoke hung over Cape Breton Island today as weary firefighters, working in temperatures that soared above 90, fought a dozen forest fires and grimly awaited new outbreaks.

At the same time three other fires raged on the Nova Scotia mainland—one of them threatened a monastery—and still another three were burning near Moncton, N.B., where thousands of acres of valuable timberland were consumed last summer. Weather forecasts promised no relief for drought-stricken Cape Breton where small streams were drying up and all-time high temperatures were being recorded.

The worst outbreak was on Cheticamp Island, divided from the western Cape Breton coast and the village of Cheticamp by a half-mile strip of water. Fire has ravaged the entire northern section of the four-miles-long island, and last night farmers and fishermen succeeded in completing a trench designed to protect the homes of the 15 families who dwell there. Villagers watched the fire warily, fearing that a sudden shift in the wind would leapfrog sparks into their community of 2,700.

Some 40 miles south of Cheticamp, 1,200 acres of spruce have fallen before the advancing flames. Forest ranger Austin Letcher said that only rain would quell the fire, now 10 days old.

Newest outbreak on the Nova Scotia mainland was near Antigonish, where a stubborn flash fire has been burning for five days. The fire was less than two miles from the St. Augustine Monastery. The third fire on the mainland, now under control, was east of Halifax Harbor.

MONKEY SHINES—She's never gotten an Oscar, but Miss Josephine is one of Hollywood's veteran character actresses. The 41-year-old monkey, who made her screen debut in "What Price Glory" in 1925, is now appearing in her 100th film, "Ever the Beginning."

## Road Washed Out? Just Pack This Midget Car In A 'Suitcase' And Carry It

Children's toy wagons and scooters gave clever Hiroshi Tamura, former war plant worker in Osaka, Japan, the idea for the midget car seen in photos above. Powered by a 1/2-horsepower motor, it is so light that it can be covered with a valise-like case and carried. At left, the young son of a U.S. army officer in Osaka demonstrates

how simple the car is to run. Centre photo shows Tamura placing the tiny motor in the frame. Wheels are airplane tail wheels, of which there is a great surplus, as Japanese are forbidden to manufacture aircraft. Photo at right shows the box into which car can be slipped and toted about like a suitcase.

## The DOCTOR Says:

## POLIO VIRUS SPREAD BY CONTACT

By WILLIAM A. O'BRIEN, M.D.

Public health officers are reluctant to advise control measures for infantile paralysis which are not consistent with our present-day knowledge of the cause and spread of the disease. They realize that once an epidemic starts, it will most likely run its course, although control measures may keep a few people from getting the infection.

From carriers the virus is

transmitted by intimate contact, contaminated hands, or infected articles.

When an epidemic starts, it tends to spread radially like the spokes of a wheel. Where the disease first appears, it first disappears. It requires 6 to 8 weeks for the peak to develop and 8 to 10 weeks for the outbreak to recede.

Children under the age of 12, members of certain families, pregnant women, and children who have had their tonsils removed during an epidemic are most likely to contract poliomyelitis.

There is no known preventive for infantile paralysis. Public playgrounds and swimming pools should be closed in epidemics to lessen intimate contact between children. Closing theatres and

schools is not indicated as a general rule, and little is accomplished in postponing the opening of school except in certain rural districts in which children might be brought together for the first time during an epidemic.

## GUARD AGAINST FLIES

Fly control measures should be stepped up, although spreading DDT from an airplane after an epidemic has started is of doubtful value. Flies should be prevented from breeding near sewage disposal plants or other channels through which a community disposes of human excreta, which may contain the virus.

Infantile paralysis patients can be admitted to general hospitals, where they should be handled the same as typhoid fever patients. If

kept at home, they should be isolated from two to four weeks.

Albert B. Sabin, M.D., Cincinnati, points out that infantile paralysis seems more commonly to affect people who have made the greatest effort toward sanitation; he shows that the disease has been more common in our American troops than in the native population. Can lack of sanitation, in which food infected with poliomyelitis virus is eaten by natives, result in immunity?

## Vancouver Packers To Take Strike Vote

VANCOUVER (CP)—A strike vote will be taken among 150 employees of the Swift Canadian Company Ltd. within the next few days here and in New West-

minster. The workers are members of the United Packinghouse Workers Union (C.C.L.).

The vote was ordered by the Canadian director of the union, Fred Dowling.

Employees are asking an 18-cent-an-hour increase and a 40-hour week.

Letter after letter reads:

# "The Finest Pontiac yet"

A Product of General Motors

"As a motor mechanic familiar with all cars, Pontiac's powerful but quiet head engine is my choice."  
A. Brown, Regina, Sask.

"Pontiac's powerful I-Head engine has proved itself to me in its greater economy, quietness, smoothness and longest trouble-free service, in actual operation."  
C. E. Kasten, Fort William, Ont.

"I have found my Pontiac outstanding as far as riding qualities are concerned. One point which especially impresses me is the way it takes the curves even at high speeds."  
E. Broten, Kenora, Ontario.

"I wanted 21 months to get my new Pontiac but I'm certainly glad I did. For ease of handling and economy of operation it just can't be beat."  
John Ross, Port Arthur, Ontario.

"I have always driven a large car, but I find in Pontiac all the features I had in expensive cars at a great reduction."  
Thos. Graham, Medicine Hat, Alberta.

"I own and operate a taxi business and many years of experience have taught me that Pontiac cars are the best in quality, the lowest in operation expense."  
Ralph L. Harding, Yarmouth, N.S.

"In over 30,000 miles, I have had to replace no parts and my garage work has amounted to only a few minor adjustments."  
G. M. Friesell, Dartmouth, N.S.

"I particularly enjoy its riding quality and am more than satisfied with the fuel economy."  
Don Grant, North Battleford, Sask.

"I have always been an admirer of bodies by Fisher, and I believe Pontiac's streamlined grace is unsurpassed in the low or middle class fields."  
G. Motterhead, Toronto, Ontario.

"My work involves a high annual mileage over all sorts of roads. Dependability and riding comfort are, therefore, important qualities to me. In Pontiac I have them."  
F. L. Romkey, Halifax, N.S.

"We have several 1947 Pontiac cars, each of which has been driven more than 8000 miles, and which have given extraordinary performance. In other words, they offer the same quality as much higher priced automobiles."  
D. Gendron, Beauharnois, P.Q.

"Our many drivers have only complaints to express when speaking of our Pontiac cars. The steering ease and driving comfort over cobblestone roads and narrow winding streets make driving a pleasure."  
A. Gagnon, Quebec, P.Q.

## Exciting Musical Extravaganza Here

Turning its omnivorous musical attention to a heretofore untapped source of colorful spectacle and rhythmic richness, 20th Century-Fox has dipped into the fabulous Caribbean area for its newest technicolor musical extravaganza, "Carnival in Costa Rica." The film, starring Dick Haymes, Vera-Ellen, Cesar Romero and Celeste Holm, and opening today at the Dominion Theatre, is said to blaze a brilliant new path in unusual and exciting musical entertainment.

## 'The Hunchback Of Notre Dame' At Rio

Few screen efforts coming from the studios ever attain the perfection of R.K.O.'s period spectacle "The Hunchback of Notre Dame." This superb picture, starring Charles Laughton, Maureen O'Hara, supported by Thomas Mitchell and Sir Cedric Hardwicke, brings the Paris of Louis XI to vivid, pulsating life. This superb drama, showing at the Rio Theatre, for three days, was directed by William Dieterle.

JANE WYMAN, as Ma Baxter, stern backwoods wife, finds herself forced to put her son's pet deer out of the way in suspense-packed scene in "The Yearling," technicolor filmization of the Pulitzer prize-winning novel, now showing at the Royal Theatre. The boy is Jody, played by Claude Jarman Jr.

## Bob Hope Planning To Slow Up After Making Recovery

By BOB THOMAS

HOLLYWOOD (AP)—Bob Hope, whose activities have rushed at a break-neck speed in recent years, is going to slow down a bit. After his current film, he plans to devote his time to his air show and not make another picture until February or after.

The sleek-beaked comic is again enlivening this sleepy town, having recovered from his illness. He told me his sunburn was inflicted after he slept but one hour in the equator sun. Even more painful was a tooth extraction when he got back here. "They had to dig down to my hip for it," he said.

### NO PLACE LIKE HOME

Susan Hayward plans to make no films away from her boss, Walter Wanger. A recent experience on a loan-out convinced her. She believes that a performer's long-range welfare is safer at one's home lot.

Sydney Greenstreet has been released from his Warner's duties for the rest of the year and will be able to do two films on the outside. They shape up as "Prelude to Night" with Zachary Scott, Lynn Bari, and Louis Hayward, and "The Velvet Touch" with Rosalind Russell. Sydney is still anxious to play Benjamin Franklin on the screen, for which he'd be a natural.

He also has offers from England to play "Father Brown, Detective," from the G. K. Chesterton stories.

### FLATTERED BUT WARY

Ricardo Montalban says he's flattered by reports he'll play Rudolph Valentino, but he's wary of the role. He doesn't want to be typed as the imitator of the great Latin lover. His next after "On An Island With You" will be a father-and-son story with Jose Huerfano.

"A Male Bergman" is being sought by Leo McCarey for the role opposite Ingrid in "Adam and Eve." It's no small problem because he has to be good enough to help carry the picture (no supporting roles, unless you include the snake). And he has to have a physique which will stand considerable exposure (that eliminates many leading men). Johnny Weissmuller will test for the role.

Kathryn Grayson and Johnny Johnston will honeymoon in the Canadian Rockies after their Aug. 21 wedding. The Al Jolson and the Harry James have moved into the Del Mar Turf and Surf Hotel for the racing season. Paramount is ecstatic over "Dear Ruth," which is even outdrawing "Perils of Pauline." The latter's ad campaign has been overhauled to emphasize the music end and tone down the old-time serial stuff. Too many people thought the film was an oldie.

YORK THEATRE  
With the crack of a bat and an umpire's "You're out!" school days came back to James Craig, three-letter man in football, boxing and baseball, before he turned to acting. Craig, in baseball uniform, returned to the diamond at Wrigley Field, Los Angeles, for scenes in the new M-G-M picture, "Boys' Ranch," now showing at the York Theatre. What's more, the team Craig played with in front of the camera was an authentic semi-professional one. The actor's first "rehearsal" for scene was to point to the left field bleachers, then belt a ball over the wall!

DICK HAYMES AND CELESTE HOLM enjoy fiesta in "Carnival in Costa Rica" in new Twentieth Century-Fox technicolor musical extravaganza at the Dominion Theatre.

## 'Yearling,' Notable Screen Experience

Every once in a while there comes out of Hollywood a motion picture so eloquently conceived, so beautifully true to life as to remain forever etched on one's memory. Such a picture is "The Yearling," filmization of the Pulitzer Prize-winning novel by Marjorie Kinnan Rawlings, now being shown at the Royal Theatre.

For its selections of Gregory Peck and Jane Wyman as Penny and Ma Baxter, for its discovery of a remarkable new juvenile find, Claude Jarman Jr., whose portrayal of Jody will be one of the most talked-about performances of this and many a year, for its faithful transcription to the Technicolor screen of not only the stirring events but the spirit of the original story, and for the direction of Clarence Brown—"The Yearling" reaches the peak in motion picture artistry.

## Hon. H. Asquith Dies

LONDON (CP)—The death of Hon. Herbert Asquith, 66, at Bath was announced today. He was a barrister, poet, novelist and the son of the late Hubert Henry Asquith, first Earl of Oxford and Asquith, who was Liberal Prime Minister of Britain from 1908 to 1916.

**PLAZA THEATRE**  
Currently at the Plaza Theatre "Hungry Hill," is a picture of swift-moving dramatic action with spectacular background. Adapted from the novel of the same name by Daphne du Maurier, it is produced by William Siström, directed by Brian Desmond Hurst and has an impressive cast headed by Margaret Lockwood, Dennis Price and Cecil Parker.

**OAK BAY THEATRE**  
In "Great Expectations," now at the Oak Bay Theatre, an outstanding performance as Pip, the young blacksmith's apprentice whose great expectations come true when he is left a fortune, is given by John Mills, and playing opposite him in the role of the proud and lovely Estella, is Valerie Hobson. Finlay Currie handles the difficult part of Magwitch, the convict who leaves Pip the money he has made in Australia because of his kindness the boy showed him in the past and Marita Hunt is the rich and eccentric Miss Havisham.

**ATLAS THEATRE**  
New technical development evolved by the combined craft of Warner Bros. prop department and cameraman James Wong Howe was used successfully in the United States Pictures' production of Niven Busch's "Pursued." Warner, release, co-starring Teresa Wright and Robert Mitchum, now at the Atlas Theatre. It's a new plastic compound for window glass. Crystal clear as standard glass, it resists heat and fractures safely. The plastic compound simulates glass perfectly.

**Plays Selected By Little Theatre**  
There will be a special meeting at the Little Theatre on Aug. 13 at 8 to which all members who wish to take an active part in the activities of the organization are invited. At this meeting several plays and sketches will be cast and plans for the whole season will be laid before the members. Present plans include an opening show in October which will feature beginners and new members in several short sketches in addition to the production of a play written by one of the Little Theatre members. The Christmas entertainment in aid of the Solarium will feature dramatic version of Dickens' Christmas Carol and a choral group singing the traditional carols. In February a Shakespeare night will include scenes from "Twelfth Night," "Julius Caesar," "Romeo and Juliet" and "The Merchant of Venice."

**Storm Wreaks Havoc In Ontario**  
TIMAGAMI, Ont. (CP)—A sudden squall which brought fierce electrical discharges, a 70-mile an hour gale and hail stones as large as eggs, struck the Lake Timagami region late yesterday and in 15 minutes caused \$100,000 damage in this northern port district.

**John Beckwith Wins Piano Scholarship**  
John Beckwith, of Victoria, has been awarded the Heintzman Piano Scholarship at the Toronto Conservatory of Music, according to word received here. The scholarship is to the value of \$250, and will apply for the academic season of 1947-48.

**Canadian Sailors Win Soccer Trophy**  
Royal Canadian Navy footballers captured the Naval Veterans' Cup at Macdonald Park yesterday by defeating an eleven from H.M.S. Kenya 4 to 2.

**T.C.A. Planes To Use Shannon Airport**  
DUBLIN (CP)—An air pact between Canada and Eire permitting landings by Canadian aircraft at Eire airports will be signed at noon today by Canadian Reconstruction Minister C. D. Howe and Prime Minister De Valera.

**Kidnapping Theory Ends With Finding Of Body**  
FALMOUTH, Mass. (AP)—Body of four-year-old Nancy Perini, niece of Lou Perini, millionaire part-owner of the Boston Braves baseball team, missing since Thursday, was found today in the surf of a beach in front of the family summer home.

**Gayle Smith Injured**  
SARATOGA SPRINGS, N.Y. (CP)—Jockey Gayle L. Smith, 32-year-old veteran who formerly rode on western Canada tracks, suffered severe spinal injuries Thursday when Grand Choice, his mount in a two-year-old race at Saratoga, reared in the paddock and fell on the rider.

**John Beckwith Wins Piano Scholarship**

### ESTATE OF THOMPSON HILLIS DECEASED

### Notice to Creditors

NOTICE IS HEREBY GIVEN that all creditors and other persons having any claims or demands against the estate of Thompson Hillis, deceased, carrying on business under the name of Hillis, Fuel, late of the City of Victoria, in the Province of British Columbia, who died intestate on or about the 27th day of July, 1947, at the City of Victoria, Province of British Columbia, of whose estate was granted on the 5th day of August, 1947, in the Victoria Registry of the Supreme Court of British Columbia, to Rupert Leslie Cox, Official Administrator for the County of Victoria, are hereby required to send by post, prepaid full particulars in writing of their claims and demands, verified by Statutory Declaration, to the undersigned, on or before the 8th day of September, 1947; and all parties who have any assets belonging to or who are indebted to the said deceased, are required to forward particulars of same to me forthwith; and that the said Administrator will, after the last-mentioned date, proceed to distribute the assets of the said intestate among the parties entitled thereto, having regard only to the claims and demands of which he shall then have had notice.

AND TAKE FURTHER NOTICE that, pursuant to Section 28 of the "Trustee Act," the said Administrator will not be liable for the assets of the said intestate, or any part thereof so distributed, to any person or persons of whose claims and demands he shall not have had notice by the said 8th day of September, 1947, and that he will make final distribution of the said intestate among the parties entitled thereto, having regard only to the claims and demands of which he shall then have had notice.

DATED at Victoria, British Columbia, this 8th day of August, 1947.

R. L. COX, Official Administrator, County of Victoria, Administrator of the Estate of Thompson Hillis, deceased, 819 Central Building, Victoria, British Columbia.

## Barrett Hurls Six-Hitter But Loses To Angels

The league-leading Los Angeles Angels finally came out on top in the third game of their pitching duels with Seattle Rainiers.

After being nipped twice in 11-inning affairs by the pesky Suds' strong pitching staff, Russ Bauers beat an old Angel jinx, Dick Barrett, and the Los Angeles club won the finale of their three-game series, 1 to 0, last night.

Barrett threw a six-hitter and so did Bauers. But Bauers was given a run out of the six hits while Barrett's mates failed to crash the scoring column. Third baseman Johnny Ostrowski scored the lone run after leading off with a single. The bases loaded up behind him and then Eddie Malone grounded to Mickey Rocco, who touched first base but threw too late to catch Ostrowski at the plate.

The Portland Beavers took the San Francisco Seals for the third straight game, 3 to 1, to make a clean sweep of their series and pull up within one and a half

**FLAMING TRUCKS DEATH PYRE FOR 20**—Still burning beside a road near Waxahachie, Tex., is what remains of a gasoline truck which burst into flame after striking a truck loaded with negro laborers, killing at least 20 persons. Not enough was left of the truck on which the negroes were riding to photograph.

games of the third-place Seals. San Diego swept its series

against second-place Oakland by taking the last of three contests, 7 to 4, but the Padres stayed in the cellar.

Hollywood and Sacramento, the fifth and sixth teams in the league standings, finished a series with the Stars winning two games to one. The Stars won the finale 6 to 4 when Al Libke homered in the seventh with one on.

	R.	H.	E.

LEWES, Sussex—Because H. E. Lewis, newly-appointed minister to the local church, couldn't find accommodation he made his home in one of the church rooms.

LUTON—A verger found a man asleep in his church, rolled up in the altar carpet.

## Comox Logger Dies Of Injuries

COURTENAY, B.C. (CP)—Charles Eugene Michaud, 38, of Hope, B.C., died Wednesday in St. Joseph's Hospital at Comox from injuries suffered July 30 while operating a cat tractor for W. V. Logging Company at Royaton. His wife and brother reached his bedside before he succumbed. A coroner's inquest will be held at Piercy's Funeral Parlors here at 7 p.m., Aug. 11.

LONDON—Towns which "adopted" warships are asking

that when the vessels are ready for demolition they be allowed to acquire the ship's bell, traditionally sold to the oldest surviving officer.

**PRESIDENT TRUMAN FACES THE BOYS**—During a White House visit, leaders of the "Boys' State" sponsored by the American Legion take time-out from solving world problems to record their meeting with President Truman in the usual tourist fashion. As the cameras snapped, the President posed with Edmond Gong (extreme left), 16, a Chinese-American of Miami, Fla., who was elected Boys' State president.

## CARNIVAL

By Dick Turner

"You can wipe that smile off your face! Mom said to send you in next!"

**Here Is Life As It's Lived In Victoria**

**THE** true story of Life as it is lived in Victoria—its vivid, colorful patchwork of human experience—filled with drama, pathos, comedy and romance, is unfolded for your profit and entertainment day after day in the Times Classified Ads.

It is written, not by a single person, but by thousands of people who are themselves characters in the story; and whose lack of writing skill is more than offset by the richness and sincerity of the tale itself.

In reality, these people are the City. Their lives are its life; their problems its problems; their needs and aims, its needs and aims. What they buy and sell; what they rent and trade; what jobs they offer and take; what services they render, form the basis of Victoria's revenues.

The forces that drive them; the varied needs and problems underlying their Ad-appeals, are the glistering threads of human interest that highlight the pattern of Victoria's design for living.

If you know Victoria really well and benefit fully from its dazzling opportunities, don't overlook reading its Personal and Business Diary in the Times Want Ads today and every day.

**DAILY TIMES WANT ADS**

**PRISCILLA'S POP**

Priscilla, how often must I ask you not to climb in trees?

That's no way for a nice little girl to behave.

You want to grow up and be a fine lady like Mommy, don't you?
